SUPPLEMENTARY INFORMATION:**Need for Additional Hearing**

On July 12, 2019, NMFS published a proposed rule in the **Federal Register** (84 FR 33205) that would adjust regulatory measures put in place to reduce bluefin tuna bycatch in the pelagic longline fishery for Atlantic highly migratory species (HMS). Specifically, the proposed measures address the Northeastern United States Closed Area, the Cape Hatteras Gear Restricted Area, and the Spring Gulf of Mexico Gear Restricted Area as well as the weak hook requirement in the Gulf of Mexico.

In the proposed rule, NMFS scheduled a hearing in Gloucester, MA on July 16, 2019. Recently, NMFS has received feedback from the public that there was not a sufficient amount of time (i.e., three business days) between publication of the proposed rule and the date of the public hearing in Gloucester, MA for news of the hearing to be shared across information networks to interested constituents. Therefore, NMFS is scheduling this additional hearing (see **ADDRESSES**) in Gloucester, MA to gather additional comment from the affected public in this area.
