## DEPARTMENT OF HOMELAND SECURITY

### U.S. Citizenship and Immigration Services

[OMB Control Number 1615-0105]

#### Agency Information Collection Activities; Revision of a Currently Approved Collection: Notice of Entry of Appearance as Attorney or Accredited Representative

**AGENCY:** U.S. Citizenship and Immigration Services, Department of Homeland Security.

**ACTION:** 60-Day notice.

**SUMMARY:** The Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS) invites the general public and other Federal agencies to comment upon this proposed revision of a currently approved collection of information. In accordance with the Paperwork Reduction Act (PRA) of 1995, the information collection notice is published in the **Federal Register** to obtain comments regarding the nature of the information collection, the categories of respondents, the estimated burden (*i.e.* the time, effort, and resources used by the respondents to respond), the estimated cost to the respondent, and the actual information collection instruments.

**DATES:** Comments are encouraged and will be accepted for 60 days until September 10, 2021.

**ADDRESSES:** All submissions received must include the OMB Control Number 1615-0105 in the body of the letter, the agency name and Docket ID USCIS-2008-0037. Submit comments via the Federal eRulemaking Portal website at

<https://www.regulations.gov> under e-Docket ID number USCIS-2008-0037.

**FOR FURTHER INFORMATION CONTACT:** USCIS, Office of Policy and Strategy, Regulatory Coordination Division, Samantha Deshommes, Chief, telephone number (240) 721-3000 (This is not a toll-free number. Comments are not accepted via telephone message). Please note contact information provided here is solely for questions regarding this notice. It is not for individual case status inquiries. Applicants seeking information about the status of their individual cases can check Case Status Online, available at the USCIS website at <https://www.uscis.gov>, or call the USCIS Contact Center at 800-375-5283 (TTY 800-767-1833).

#### SUPPLEMENTARY INFORMATION:

##### Comments

You may access the information collection instrument with instructions or additional information by visiting the Federal eRulemaking Portal site at: <https://www.regulations.gov> and entering USCIS-2008-0037 in the search box. All submissions will be posted, without change, to the Federal eRulemaking Portal at <https://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to consider limiting the amount of personal information that you provide in any voluntary submission you make to DHS. DHS may withhold information provided in comments from public viewing that it determines may impact the privacy of an individual or is offensive. For additional information, please read the Privacy Act notice that is available via the link in the footer of <https://www.regulations.gov>.

Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

#### Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Notice of Entry of Appearance as Attorney or Accredited Representative.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* G-28; G-28I; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* **Primary:** Business or other for-profit. The data collected via the G-28 and G-28I is used by DHS to determine eligibility of the individual to appear as a representative. Form G-28 is used by attorneys admitted to practice in the United States and accredited representatives of certain non-profit organizations recognized by the Department of Justice. Form G-28I is used by attorneys admitted to the practice of law in countries other than the United States and only in matters in DHS offices outside the geographical confines of the United States. If the representative is eligible, the form is filed with the case and the information is entered into DHS systems.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection G-28 is 3,429,825 and the estimated hour burden per response is 0.833 hours. The estimated total number of respondents for the information collection G-28 online filing is 281,950 and the estimated hour burden per response is 0.667 hours. The estimated total number of respondents for the information collection G-28I is 25,057 and the estimated hour burden per response is 0.700 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 3,062,645 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$0. Any costs associated with this collection of information are included in the cost of the primary forms with which Form G-28 (paper or online) or Form G-28I is filed.

Dated: July 6, 2021.

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

[Docket No. FWS-R2-ES-2020-0040;  
FXES11130200000-201-FF02ENEH00]

### Endangered and Threatened Wildlife and Plants; Draft Revised Recovery Plan for Gila Trout

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comment.

**SUMMARY:** We, the U.S. Fish and Wildlife Service, announce the availability of our draft revised recovery plan for the Gila trout, listed as threatened under the Endangered Species Act. This fish species is endemic to mountain streams within the upper Gila River basin in New Mexico and Arizona. We provide this notice to seek comments from the public and Federal, Tribal, State, and local governments.

**DATES:** We must receive written comments on or before September 10, 2021.

#### ADDRESSES:

*Reviewing Documents:* You may obtain a copy of the draft revised recovery plan and recovery implementation strategy in Docket No. FWS-R2-ES-2020-0040 at <http://www.regulations.gov>.

*Submitting Comments:* You may submit comments by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R2-ES-2020-0040.

- *U.S.:* Public Comments Processing; Attn: Docket No. FWS-R2-ES-2019-0040; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike, Falls Church, VA 22041-3803.

For additional information about submitting comments, see Request for Public Comments and Public Availability of Comments under

#### SUPPLEMENTARY INFORMATION.

#### FOR FURTHER INFORMATION CONTACT:

Shawn Sartorius, Field Supervisor, New Mexico Ecological Services Field Office,

by phone at 505-761-4781, by email at [nmesfo@fws.gov](mailto:nmesfo@fws.gov), or via the Federal Relay Service at 800-877-8339 for TTY service.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service (Service), announce the availability of our draft revised recovery plan for the Gila trout (*Oncorhynchus gilae*), listed as threatened under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). Gila trout are endemic to mountain streams in the Gila, San Francisco, Agua Fria, and Verde River drainages in New Mexico and Arizona. The draft revised recovery plan includes site-specific management actions and objective, measurable criteria that, when met, will enable us to remove the Gila trout from the list of endangered and threatened wildlife. We request review and comment on this plan from local, State, and Federal agencies; Tribes; and the public. We will also accept any new information on the status of the Gila trout throughout its range to assist in finalizing the recovery plan.

#### Background

Recovery of endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program and the ESA. Recovery means improvement of the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the ESA. The ESA requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species. The Service approved the original recovery plan for the Gila trout on January 12, 1979 (Service 1979), with subsequent revisions approved on January 3, 1984 (Service 1984), December 8, 1993 (Service 1993), and August 19, 2003 (Service 2003).

This draft revised recovery plan for the Gila trout represents the fourth revision and considers updated information on genetics, population status, and threats (principally wildfire effects and hybridization) in the development of revised recovery objectives, criteria, and actions. We used a streamlined approach to recovery planning and implementation for the Gila trout by preparing separate recovery plan and recovery implementation strategy documents. The information in the draft recovery plan provides the biological background, a threats assessment, a strategy for recovery of the Gila trout,

quantitative delisting criteria, a list of prioritized recovery actions, and the estimated time and cost to recovery (Service 2020a). The separate recovery implementation strategy document further describes in detail the specific activities needed to implement the recovery actions (Service 2020b).

#### Summary of Species Information

Gila trout are endemic to mountain streams within the Gila, San Francisco, Agua Fria, and Verde River drainages in New Mexico and Arizona. Although Gila trout were documented to occur in the upper Gila River basin since at least 1885, the species was not described until 1950, by which time its distribution had been dramatically reduced. On March 11, 1967, we listed the Gila trout as endangered under the Federal Endangered Species Preservation Act of 1966 (32 FR 4001). The Gila trout's endangered status was continued under the Endangered Species Act of 1973, and we reclassified it as a threatened species on July 18, 2006, with a special rule under section 4(d) of the ESA (71 FR 40657).

Gila trout are readily identified by their iridescent gold sides, which blend to a darker shade of copper on the opercles (bony plates surrounding the gills). Spots on the body are small and profuse, generally occurring above the lateral line and extending onto the head, dorsal fin, and caudal fin. These spots are irregularly shaped on the sides and increase in size dorsally. A few scattered spots are sometimes present on the anal fin, and the adipose fin is typically large and well spotted. Dorsal, pelvic, and anal fins have a white to yellowish tip that may extend along the leading edge of the pelvic fins. A yellow cutthroat mark is present on most mature specimens. Parr marks (vertical bars present when trout are less than a year old) are commonly retained by adults, and a faint, salmon-pink band is also present on adults, particularly during spawning season, when the normally white belly may be streaked with yellow or reddish orange. Spawning of Gila trout occurs mainly in April and begins when water temperatures reach about 8 °C (46 °F), but day length may also be an important cue. Gila trout fry [20 to 25 millimeters (mm), or 0.8 to 1.0 inches (in) total length] emerge in 56 to 70 days. Females reach maturity between two to four years after hatching, and males typically reach maturity at two or three years. Most individuals are mature at a length of 150 mm (6 in) or greater, and live five years. Thus, the majority of adult female Gila trout spawn only twice before
