A limited number of hard copies and CD-ROMs of the draft EIS are available from the FERC's Public Reference Room identified above. The draft EIS is also available for public viewing on the FERC's Internet Web site at <http://www.ferc.gov>. In addition, copies of the draft EIS have been mailed to federal, state, and local government agencies; elected officials; Native American tribes; local libraries and newspapers; intervenors in the FERC's proceeding; individuals who provided scoping comments; affected landowners and individuals who requested the draft EIS; and new landowners identified as being crossed by route alternatives either recommended by FERC staff or still under consideration.

Route Alternatives Recommended or Considered by FERC in the Draft EIS

Some landowners are receiving the draft EIS because their property has been identified as potentially being affected by certain route alternatives recommended or considered by FERC staff to avoid or lessen environmental impacts along Ruby's proposed pipeline route in several locations. Refer to the discussion of the Terrace Basin, Willow Creek, Southern Langell Valley, Sheldon, and Black Rock Route Alternatives in section 3.4 of the draft EIS. Please note that while staff has recommended the use of the first three listed alternatives, a decision whether or not to recommend use of the Sheldon Route Alternative or Black Rock Route Alternative has not yet been made. The Commission staff wants to ensure that all potentially affected landowners have

the opportunity to participate in the environmental review process, thus staff is soliciting comments to assist with the environmental analysis of these route alternatives, which will be presented in the final EIS.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number," excluding the last three digits in the Docket Number field (*i.e.*, CP09-54), and follow the instructions. You may also search using the phrase "Ruby Pipeline Project" in the "Text Search" field. For assistance with access to eLibrary, the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents.
