BILLING CODE 4338–11–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332–598]

Greenhouse Gas Emissions Intensities of the U.S. Steel and Aluminum Industries at the Product Level; Submission of Questionnaire and Information Collection Plan for Office of Management and Budget Review

AGENCY: United States International
Trade Commission.

ACTION: Notice of submission of request
for approval of a questionnaire and
information collection to the Office of
Management and Budget.

SUMMARY: The information requested by
the questionnaire is for use by the
Commission in connection with
Investigation No. 332–598, *Greenhouse
Gas Emissions Intensities of the U.S.
Steel and Aluminum Industries at the
Product Level*.

ADDRESSES: All Commission offices are
located in the U.S. International Trade
Commission Building, 500 E Street SW,
Washington, DC. Persons with mobility
impairments who will need special
assistance in gaining access to the
Commission should contact the Office
of the Secretary at 202–205–2000.

FOR FURTHER INFORMATION CONTACT: The
project leaders for this investigation are
Caroline Peters, Shova KC, Alexander
Melton, and Kristin Smyth. Please direct
all questions and comments about this
investigation to Shova KC at 202–780–
0230 or via email at sa.emissions@usitc.gov. The Commission is not
accepting paper correspondence for this
investigation.

Comments about the proposal should
be provided to the Office of
Management and Budget, Office of
Information and Regulatory Affairs
through the Information Collection
Review Dashboard at <https://www.reginfo.gov>. All comments should
be specific, indicating which part of the
questionnaire is objectionable,
describing the concern in detail, and

including specific suggested revisions or
language changes. Copies of any
comments should be provided
electronically to the Commission's
survey team via an email to
sa.emissions@usitc.gov.

The public record for this
investigation may be viewed on the
Commission's electronic docket (EDIS)
at <https://edis.usitc.gov>. General
information concerning the Commission
may be obtained by accessing its
internet address (<https://www.usitc.gov>).
Hearing-impaired individuals are
advised that information on this matter
can be obtained by contacting the TDD
terminal on 202–205–1810.

SUPPLEMENTARY INFORMATION: The
information requested by the
questionnaire is for use by the
Commission in connection with
Investigation No. 332–598, *Greenhouse
Gas Emissions Intensities of the U.S.
Steel and Aluminum Industries at the
Product Level*, instituted under the
authority of section 332(g) of the Tariff
Act of 1930 (19 U.S.C. 1332(g)). This
investigation and report were requested
by the United States Trade
Representative in a letter dated June 5,
2023. This investigation was instituted
on July 5, 2023, and the notice of
investigation was published in the
Federal Register on July 10, 2023 (88 FR
43633). The Commission will deliver its
report to the Trade Representative by
January 28, 2025.

As stated in the notice of
investigation, the Trade Representative
requested that the Commission generate
estimates of the greenhouse gas (GHG)
emissions intensities of a broad range of
U.S. steel and aluminum products. The
U.S.-produced individual products that
are covered under this investigation are
enumerated in attachment B to the
request letter. GHG emissions intensities
will be developed from the scope 1 and
2 emissions related to the production of
covered steel and aluminum products
and the scope 3 emissions associated
with the material and resource inputs
for the production of covered steel and
aluminum products in 2022. These
intensity estimates will be developed, to
the extent practicable, for a set of
specific product category groupings
listed in attachment A of the request
letter, though the Commission may
present emissions intensities at further
levels of disaggregation from these
groupings. Because the information
necessary to generate these estimates is
not available in the requested specificity
from governmental and other public
sources, the Trade Representative
directed the Commission to obtain
much of such information through a

survey. The survey aims to collect data
on scope 1, 2, and 3 emissions,
production, and parameters that will
allow for the allocation of the emissions
to the product categories. Responses
will be used as inputs in the
Commission's calculation of emissions
intensities.

The Commission intends to submit
the following draft information
collection plan to OMB:

- (1) *Number of forms submitted:* 2.
- (2) *Title of forms:* Greenhouse Gas
(GHG) Emissions Intensities
Questionnaire: Company-Level and
Greenhouse Gas (GHG) Emissions
Intensities Questionnaire: Facility-
Level.
- (3) *Type of request:* New.
- (4) *Frequency of use:* Industry
questionnaire, single data gathering,
scheduled for 2024.
- (5) *Description of respondents:*
Companies with U.S. facilities that
produced steel and aluminum products
in 2022 and those facilities.
- (6) *Estimated number of
questionnaires to be distributed:* 5,250
total (1,750 companies, 3,500 facilities).
- (7) *Estimated total number of hours to
complete the questionnaire per
respondent:* 5 hours for the company-
level questionnaire and 30 hours for the
facility-level questionnaire for each
facility.

(8) Information obtained from the
questionnaires that qualifies as
confidential business information will
be so treated by the Commission and not
disclosed in a manner that would reveal
the individual operations of a business
at the company or facility level.

Information about the investigation
and other supplementary documents
can be accessed on the USITC website
at <https://www.usitc.gov/saemissions>.

By order of the Commission.

Issued: January 31, 2024.

Lisa Barton,

Secretary to the Commission.
