

reached on November 16, 2005.

Accordingly, the commercial fishery for Gulf group king mackerel in the western zone is closed effective 12 noon, local time, November 17, 2005, through June 30, 2006, the end of the fishing year. The boundary between the eastern and western zones is 87°31'06" W. long., which is a line directly south from the Alabama/Florida boundary.

Except for a person aboard a charter vessel or headboat, during the closure, no person aboard a vessel for which a commercial permit for king mackerel has been issued may fish for Gulf group king mackerel in the EEZ in the closed zones or subzones. A person aboard a vessel that has a valid charter vessel/headboat permit for coastal migratory pelagic fish may continue to retain king mackerel in or from the closed zones or subzones under the bag and possession limits set forth in 50 CFR 622.39(c)(1)(ii) and (c)(2), provided the vessel is operating as a charter vessel or headboat. A charter vessel or headboat that also has a commercial king mackerel permit is considered to be operating as a charter vessel or headboat when it carries a passenger who pays a fee or when there are more than three persons aboard, including operator and crew.

During the closure, king mackerel from the closed zones or subzones taken in the EEZ, including those harvested under the bag and possession limits, may not be purchased or sold. This prohibition does not apply to trade in king mackerel from the closed zones or subzones that were harvested, landed ashore, and sold prior to the closure and were held in cold storage by a dealer or processor.

Classification

This action is required by 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B), as such prior notice and opportunity for public comment is unnecessary and contrary to the public interest. Such procedures would be unnecessary because the rule itself already has been subject to notice and comment, and all that remains is to notify the public of the closure.

Allowing prior notice and opportunity for public comment is contrary to the public interest because of the need to immediately implement this action in

order to protect the fishery since the capacity of the fishing fleet allows for rapid harvest of the quota. Prior notice and opportunity for public comment will require time and would potentially result in a harvest well in excess of the quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 15, 2005.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

50 CFR Part 622

[I.D. 111405B]

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Closure of the 2005 Tilefish Commercial Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS closes the commercial fishery for tilefish (goldface tilefish, blackline tilefish, anchor tilefish, blueline tilefish, and tilefish) in the exclusive economic zone (EEZ) of the Gulf of Mexico. NMFS has determined that the tilefish quota for the commercial fishery will have been reached by November 21, 2005. This closure is necessary to protect the tilefish resource.

DATES: Closure is effective 12:01 a.m., local time, November 21, 2005, until 12:01 a.m., local time, on January 1, 2006.

FOR FURTHER INFORMATION CONTACT:

Jason Rueter, telephone 727-824-5350, fax 727-824-5308, e-mail Jason.Rueter@noaa.gov.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf of Mexico is managed under the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP). The FMP was prepared by the Gulf of Mexico Fishery Management Council and is implemented under the authority

of the Magnuson-Stevens Fishery Conservation and Management Act by regulations at 50 CFR part 622. Those regulations set the commercial quota for tilefish in the Gulf of Mexico at 0.44 million lb (200,000 kg) for the current fishing year, January 1 through December 31, 2005.

Under 50 CFR 622.43(a), NMFS is required to close the commercial fishery for a species or species group when the quota for that species or species group is reached, or is projected to be reached, by filing a notification to that effect in the **Federal Register**. Based on current statistics, NMFS has determined that the available commercial quota of 0.44 million lb (200,000 kg) for tilefish will be reached on or before November 21, 2005. Accordingly, NMFS is closing the commercial tilefish fishery in the Gulf of Mexico EEZ from 12:01 a.m., local time, on November 21, 2005, until 12:01 a.m., local time, on January 1, 2006. The operator of a vessel with a valid reef fish permit having tilefish aboard must have landed and bartered, traded, or sold such tilefish prior to 12:01 a.m., local time, November 21, 2005.

During the closure, the bag and possession limits specified in 50 CFR 622.39(b) apply to all harvest or possession of tilefish in or from the Gulf of Mexico EEZ, and the sale or purchase of tilefish taken from the EEZ is prohibited. The prohibition on sale or purchase does not apply to sale or purchase of tilefish that were harvested, landed ashore, and sold prior to 12:01 a.m., local time, November 21, 2005, and were held in cold storage by a dealer or processor.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to close the fishery constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(3)(B), as such procedures would be unnecessary and contrary to the public interest. These procedures are unnecessary because the regulation requiring the closure has been subject to notice and comment, and all that remains is to notify the public of the closure. For these same reasons, there is good cause that the implementation of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d)(3), a delay in the effective date is waived.

This action is required by 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Fisheries Off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Inseason Action #9 - Adjustment of the Recreational Fishery from Leadbetter Point, Washington, to Cape Falcon, Oregon

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of fishing seasons; request for comments.

SUMMARY: NMFS announces a regulatory modification in the recreational fishery from Leadbetter Point, WA, to Cape Falcon, OR (Columbia River Subarea). Effective Friday, September 9, 2005, the daily bag limit for the Columbia River Subarea was modified as follows: "All salmon, except no Chinook retention, two fish per day, all retained coho must have a healed adipose fin clip." All other restrictions remain in effect as announced for 2005 ocean salmon fisheries, and by previous inseason actions. This action was necessary to conform to the 2005 management goals, and the intended effect is to allow the fishery to operate within the seasons and quotas specified in the 2005 annual management measures.

DATES: Effective 0001 hours local time (l.t.), Friday, September 9, 2005, until either the overall Chinook quota or coho quota is taken, or 2359 hours l.t., September 30, 2005, whichever is earlier; after which the fishery will remain closed until opened through an additional inseason action for the west coast salmon fisheries, which will be published in the **Federal Register**, or until the effective date of the next scheduled open period announced in the 2005 annual management measures.

Comments will be accepted through December 5, 2005.

ADDRESSES: Comments on this action must be mailed to D. Robert Lohn, Regional Administrator, Northwest Region, NMFS, NOAA, 7600 Sand Point Way N.E., Bldg. 1, Seattle, WA 98115-0070; or faxed to 206-526-6376; or Rod McInnis, Regional Administrator, Southwest Region, NMFS, NOAA, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4132; or faxed to 562-980-4018. Comments can also be submitted via e-mail at the 2005salmonIA9.nwr@noaa.gov address, or through the internet at the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments, and include [050426117-5117-01 and/or I.D. 110905D] in the subject line of the message. Information relevant to this document is available for public review during business hours at the Office of the Regional Administrator, Northwest Region, NMFS.

FOR FURTHER INFORMATION CONTACT: Christopher Wright, 206-526-6140.

SUPPLEMENTARY INFORMATION: The NMFS Regional Administrator (RA) has adjusted the recreational fishery from Leadbetter Point, WA, to Cape Falcon, OR (Columbia River Subarea), with one regulatory modification. On September 7, 2005, the Regional Administrator determined that the Chinook catch was near the overall Chinook quota and that the Columbia River Subarea Chinook guideline had been achieved. Therefore, effective Friday, September 9, 2005, the daily bag limit for the Columbia River Subarea was modified as follows: "All salmon, except no Chinook retention, two fish per day, all retained coho must have a healed adipose fin clip."

All other restrictions remain in effect as announced for 2005 ocean salmon fisheries, and by previous inseason actions. This action was necessary to conform to the 2005 management goals, and the intended effect is to allow the fishery to operate within the seasons and quotas specified in the 2005 annual management measures. An inseason conference call was scheduled on Tuesday, September 13, 2005, to evaluate the status of the catch from the U.S.-Canada Border to Cape Falcon, Oregon, and make any inseason actions if warranted. Modification of the species that may be caught and landed during specific seasons and the establishment or modification of limited retention regulations is authorized by regulations at 50 CFR 660.409(b)(1)(ii). Modification in recreational bag limits and recreational fishing days per calendar

week is authorized by regulations at 50 CFR 660.409 (b)(1)(iii).

In the 2005 annual management measures for ocean salmon fisheries (70 FR 23054, May 4, 2005), NMFS announced the recreational fisheries: the area from the U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea) opened July 1 through the earlier of September 18 or a 12,667 marked coho subarea quota with a subarea guideline of 4,300 Chinook; the area from Cape Alava to Queets River, WA (La Push Subarea) opened July 1 through the earlier of September 18 or a 3,067 marked coho subarea quota with a subarea guideline of 1,900 Chinook; the area from Queets River to Leadbetter Point, WA (Westport Subarea) opened June 26 through the earlier of September 18 or a 45,066 marked coho subarea quota with a subarea guideline of 28,750 Chinook; the area from Leadbetter Point, WA to Cape Falcon, OR (Columbia River Subarea) opened July 3 through the earlier of September 30 or a 60,900-marked coho subarea quota with a subarea guideline of 8,200 Chinook. The Neah Bay and La Push Subareas were opened Tuesday through Saturday, and the Westport and Columbia River Subareas were opened Sunday through Thursday. All subareas had a provision specifying that there may be a conference call no later than July 27 to consider opening seven days per week. All subareas were restricted to a Chinook minimum size limit of 24 inches (61.0 cm) total length. In addition, all of the subarea bag limits were for all salmon, two fish per day, no more than one of which may be a Chinook, with all retained coho required to have a healed adipose fin clip.

The recreational fisheries in the area from Cape Alava, WA, to Cape Falcon, OR (La Push, Westport, and Columbia River Subareas), were modified by Inseason Action #5 (70 FR 47727, August 15, 2005), effective Friday, July 29, 2005, to be open seven days per week, with a modified daily bag limit as follows: "All salmon, two fish per day, and all retained coho must have a healed adipose fin clip." All other restrictions remain in effect as announced for 2005 Ocean Salmon Fisheries.

The recreational fishery from the U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea), was modified by Inseason Action #6 (70 FR 52035, September 1, 2005), effective Tuesday, August 16, 2005, to have a daily bag limit as follows: "All salmon, two fish per day, and all retained coho must have a healed adipose fin clip." All other restrictions remain in effect as
