RIN 0694-A173

Further Imposition of Sanctions Against Russia With the Addition of Certain Entities to the Entity List

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: In response to the Russian Federation's (Russia's) further invasion of Ukraine on February 24, 2022, the Department of Commerce is amending the Export Administration Regulations (EAR) by adding 91 new entities to the Entity List under the destinations of Belize, Estonia, Kazakhstan, Latvia, Malta, Russia, Singapore, Slovakia, Spain, and United Kingdom with this final rule. These 91 entities have been determined by the U.S. Government to be acting contrary to the foreign policy

or national security interests of the United States.

DATES: This rule is effective March 3, 2022

FOR FURTHER INFORMATION CONTACT: Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-5991, Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Russia Sanctions

In response to Russia's further invasion of Ukraine, the Bureau of Industry and Security (BIS) has imposed stringent and expansive sanctions on Russia under the EAR (15 CFR parts 730-774). Russia's invasion of Ukraine flagrantly violates international law, is contrary to U.S. national security and foreign policy interests, and undermines global order, peace, and security, and therefore necessitates the imposition of these sanctions.

Effective February 24, 2022, BIS imposed sanctions on Russia under the EAR as part of a final rule, *Implementation of Sanctions Against Russia Under the Export Administration Regulations (EAR)* ("Russia Sanctions Rule").¹ Among other stringent licensing requirements and review policies, the Russia Sanctions Rule implemented measures to limit the ability of Russian 'military end users' under the EAR to support Russia's military activities. Specifically, BIS moved forty-five Russian entities from the Military End-User (MEU) List in supplement no. 7 to part 744 of the EAR to the Entity List in supplement no. 4 to part 744. In addition, BIS added two new Russian entities to the Entity List for acquiring items in support of nuclear activities.

In addition, effective March 2, 2022, BIS imposed sanctions on Belarus under the EAR in a final rule, *Implementation of Sanctions Against Belarus* ("Belarus Sanctions Rule"). Among other stringent licensing requirements and review policies, the Belarus Sanctions Rule implemented measures to limit the ability of Belarus' 'military end users' under the EAR to support Belarus' or Russia's military activities. Specifically, BIS added two entities in Belarus to the Entity List in supplement no. 4 to part 744.

With this final rule, in response to Russia's destabilizing conduct in Ukraine, BIS implements additional restrictions related to Russia by adding

91 entities to the Entity List under the destinations of Belize, Estonia, Kazakhstan, Latvia, Malta, Russia, Singapore, Slovakia, Spain, and United Kingdom. Specific information on the licensing requirements imposed on these entities is detailed below. The entities listed below have been involved in, contributed to, or otherwise supported the Russian security services, military and defense sectors, and military and/or defense research and development efforts.

II. Entity List Decisions

Entity List

The Entity List identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States. The EAR imposes additional license requirements on, and limit the availability of most license exceptions for, exports, reexports, and transfers (in-country) to listed entities. The license review policy for each listed entity is identified in the "License Review Policy" column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document adding entities to the Entity List. BIS places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

Entity List Changes in This Rule

This final rule implements the decision of the ERC to add 91 entities under 96 entries to the Entity List on the basis of § 744.11 (License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The 96 entries added to the Entity List consist of 1 entry in Belize, 3 entries in Estonia, 1 entry in Kazakhstan, 1 entry in Latvia, 2 entries in Malta, 81 entries in Russia, 1 entry in Singapore, 1 entry in Slovakia, 2 entries

¹ 87 FR 12226 (March 3, 2022).

in Spain, and 3 entries in United Kingdom. Entities with addresses under multiple countries receive multiple entries on the Entity List, accounting for the difference between the number of entities and entries added by this rule.

The ERC reviewed § 744.11(b) (Criteria for revising the Entity List) in making the determination to add these 91 entities to the Entity List. Under that paragraph, persons for whom there is reasonable cause to believe, based on specific and articulable facts, have been involved, are involved, or pose a significant risk of being or becoming involved in, activities that are contrary to the national security or foreign policy interests of the United States and those acting on behalf of such persons may be added to the Entity List. The ERC has determined that all 91 entities have been involved, are involved in, or pose a significant risk of becoming involved in, activities that are contrary to the national security or foreign policy interests of the United States and prior review is required, via the imposition of a license requirement for exports, reexports, or transfers (in-country), of all items subject to the EAR. Specifically, all of these entities have been involved in, contributed to, or otherwise supported the Russian security services, military and defense sectors, and military and/or defense research and development efforts.

For the 91 entities added to the Entity List in this final rule under § 744.11(b), BIS imposes a license requirement that applies to all items subject to the EAR. For 86 of the 91 entities, BIS will review license applications under a policy of denial. For five entities (Elara; JSC Element; Radioavtomatika; Russian Space Systems; and Scientific Research Institute NII Submikron), BIS will review license applications involving all items subject to the EAR under a policy of denial, except on a case-by-case basis for U.S. Government supported space programs. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to the entities being added to the Entity List in this rule.

For the reasons described above, this final rule adds the following 91 entities under 96 entries to the Entity List and includes, where appropriate, aliases:

Additional Note

BIS notes that this rule is meant to serve as a response to Russian aggression against Ukraine. This rule does include entities in several allied countries, including member of the European Union and North Atlantic Treaty Organization, but is not an action against the countries in which the entities are located or registered or the governments of those countries. This rule only serves as an action against those entities listed, which have assisted the Russian military, contrary to U.S. foreign and national security policy interests.

Savings Clause

Shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were enroute aboard a carrier to a port of export, reexport, or transfer (in-country), on March 3, 2022, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR).

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license

applications and commodity classification, and carries a burden estimate of 29.6 minutes for a manual or electronic submission for a total burden estimate of 31,835 hours. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

I. Background

On November 2, 2015, the President signed into law the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Sec. 701 of Pub. L. 114–74) (“the Act”). The Act requires Federal agencies to adjust the level of civil monetary penalties with an initial “catch-up” adjustment through rulemaking and then make subsequent annual adjustments for inflation. The purpose of these adjustments is to maintain the deterrent effect of civil penalties and to further the policy goals of the underlying statutes.

The Office of Management and Budget (OMB) issued guidance for Federal agencies on calculating the catch-up adjustment. See February 24, 2016, Memorandum for the Heads of Executive Departments and Agencies, from Shaun Donovan, Director, Office of Management and Budget, re: *Implementation of the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015* (M–16–06). Under the guidance, the Department identified applicable civil monetary penalties and calculated the catch-up adjustment. A civil monetary penalty is any assessment with a dollar amount that is levied for a violation of a Federal civil statute or regulation, and is assessed or enforceable through a civil action in Federal court or an administrative proceeding. A civil monetary penalty does not include a penalty levied for violation of a criminal statute, or fees for services, licenses, permits, or other regulatory review. The calculated catch-up adjustment is based on the percent change between the Consumer Price Index for all Urban Consumers (CPI-U) for the month of October in the year of the previous adjustment (or in the year of establishment, if no adjustment has been made) and the October 2015 CPI–U.

The Bureau issued an interim final rule providing for calculated catch-up adjustments on June 30, 2016 (81 FR 42478) with an effective date of August 1, 2016, and requesting comments post-promulgation. The Bureau issued a final

rule affirming the catch-up adjustments set forth in the interim final rule on December 2, 2016 (81 FR 86953). The Bureau then issued a final rule making the next scheduled annual inflation adjustment for 2017 on January 23, 2017 (82 FR 7649), for 2018 on February 6, 2018 (83 FR 5192), for 2019 on April 15, 2019 (84 FR 15098), for 2020 on February 19, 2020 (85 FR 9366), and for 2021 on January 28, 2021 (86 FR 7344).

II. Calculation of 2022 Annual Adjustments

OMB recently issued guidance to assist Federal agencies in implementing the annual adjustments required by the Act, which agencies must complete by January 15, 2022. See December 15, 2021, Memorandum for the Heads of Executive Departments and Agencies, from Shalanda D. Young, Acting Director, Office of Management and Budget, re: *Implementation of Penalty Inflation Adjustments for 2022, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015* (M–21–10). The guidance states that the cost-of-living adjustment multiplier for 2022, based on the Consumer Price Index (CPI–U) for the month of October 2021, not seasonally adjusted, is 1.06222. (The annual inflation adjustments are based on the percent change between the October CPI–U preceding the date of the adjustment, and the prior year’s October CPI–U. For 2022, OMB explains, October 2021 CPI–U (276.589)/October 2020 CPI–U (260.388) = 1.06222.) The guidance instructs agencies to complete the 2022 annual adjustment by multiplying each applicable penalty by the multiplier, 1.06222, and rounding to the nearest dollar. Further, agencies should apply the multiplier to the most recent penalty amount that includes the initial catch-up adjustment required by the Act.

The annual adjustment applies to all civil monetary penalties with a dollar amount that are subject to the Act. This final rule adjusts the following civil monetary penalties contained in the Bureau’s regulations for 2022 by multiplying 1.06222 (*i.e.*, the cost-of-living adjustment multiplier for 2022) by each penalty amount as updated by the adjustment made in the prior year (2021):
