AGENCY: Environmental Protection Agency.

ACTION: Notice of a Final Decision on a No Migration Petition.

The collection of information is used by the Commission staff in carrying out its duties under the Communications Act. The information collections pertaining to Part 1 of the rules are necessary to determine whether the Commission should grant a license for proposed submarine cables landing in the United States. Pursuant to Executive Order No. 10530, the Commission has been delegated the President's authority under the Cable Landing License Act to grant cable landing licenses, provided that the Commission obtains the approval from the State Department and seeks advice from other government agencies as appropriate. The information collections pertaining to Part 63 are necessary largely to determine the qualifications of applicants to provide common carrier international telecommunications service, including applicants that are affiliated with foreign carriers, and to determine whether and under what conditions the authorizations are in the

public interest, convenience, and necessity.

If the collections are not conducted or are conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services, and the Commission will be unable to carry out its mandate under the Communications Act of 1934 and the Cable Landing License Act. In addition, without the information collections, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Trade Organization (WTO) Basic Telecom Agreement because these collections are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
