DEPARTMENT OF HOMELAND SECURITY

U.S. Immigration and Customs Enforcement

Agency Information Collection Activities: Extension of a Currently Approved Information Collection; Comment Request

ACTION: 30-Day notice of information collection under review: Emergency Federal Law Enforcement Assistance File No. OMB-6.

The Department of Homeland Security, U.S. Immigration and Customs Enforcement (ICE) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The information collection was previously published in the **Federal Register** on May 16, 2005 at 70 FR 25839, allowed for a 60-day public comment period. The ICE did not

receive any comments on this information collection.

The purpose of this notice is to allow an additional 30 days for public comments. Comments are encouraged and will be accepted until [August 18, 2005]. This process is conducted in accordance with 5 CFR 1320.10.

Written comments and suggestions from the public and affected agencies concerning the collection of information should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Emergency Law Enforcement Assistance.

(3) *Agency form number, if any, and the applicable component of the Department of Homeland Security sponsoring the collection:* No Agency Form Number (File No. OMB-06), U.S. Immigration and Customs Enforcement.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State, local or tribal governments. This collection of information is needed for the States and localities to submit claims for reimbursement in connection with immigration emergencies.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 10 responses at 30 hours per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 300 annual burden hours.

If you have additional comments, suggestions, or need a copy of the information collection instrument, please contact Richard A. Sloan,

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Initiation of a 5-Year Review of Higgins Eye (*Lampsilis higginsii*), Hungerford's Crawling Water Beetle (*Brychius hungerfordi*), Missouri Bladderpod (*Lesquerella filiformis*), and Running Buffalo Clover (*Trifolium stoloniferum*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 5-year review of Higgins eye (*Lampsilis higginsii*), Hungerford's crawling water beetle (*Brychius hungerfordi*), Missouri bladderpod (*Lesquerella filiformis*), and Running buffalo clover (*Trifolium stoloniferum*) under section 4(c)(2)(A) of the Endangered Species Act of 1973 (Act) (16 U.S.C. 1531 *et seq.*). We request any information on the aforementioned species since their original listings in 1976 (41 FR 24064), 1994 (59 FR 10584), 1987 (52 FR 682), and 1987 (52 FR 21480), respectively, that has a bearing on the classification of these species as threatened or endangered.

A 5-year review is a periodic process conducted to ensure that the classification of a listed species is appropriate. A 5-year review is based on the best scientific and commercial data

available at the time of the review. Based on the results of these 5-year reviews, we will make a finding of whether these species are properly classified under section 4(c)(2)(B) of the Act.

DATES: To allow us adequate time to conduct these 5-year reviews, we must receive your information no later than September 19, 2005. If you do not respond to this request for information, but subsequently possess information on the status of any of these species, we are eager to receive new information regarding federally listed species at any time.

ADDRESSES: Submit information to the U.S. Fish and Wildlife Service, Field Supervisor at the following:

1. Higgins eye: Twin Cities Ecological Services Field Office, 4101 East 80th Street, Bloomington, Minnesota 55425-1665.

2. Hungerford's crawling water beetle: East Lansing Ecological Services Field Office, 2651 Coolidge Road, Suite 101, East Lansing, Michigan 48823-5202.

3. Missouri bladderpod: Columbia Ecological Services Field Office, 101 Park DeVille Drive, Suite A, Columbia, Missouri 65203-0057.

4. Running buffalo clover: Reynoldsburg Ecological Services Field Office, 6950-H Americana Parkway, Reynoldsburg, Ohio 43068-4127.

FOR FURTHER INFORMATION CONTACT:

1. Higgins eye: Ms. Susan Oetker, Twin Cities Ecological Services Field Office (*see ADDRESSES* section); telephone (612) 725-3548, extension 219; facsimile (612) 725-3609.

2. Hungerford's crawling water beetle: Ms. Carrie Tansy, East Lansing Ecological Services Field Office (*see ADDRESSES* section); telephone (517) 351-2555; facsimile (517) 351-1443.

3. Missouri bladderpod: Dr. Paul McKenzie, Columbia Ecological Services Field Office (*see ADDRESSES* section); telephone (573) 234-2132; facsimile (573) 234-2181.

4. Running buffalo clover: Ms. Sarena Selbo, Reynoldsburg Ecological Services Field Office (*see ADDRESSES* section); telephone (614) 469-6923; facsimile (614) 269-6919.

Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at (800) 877-8337 for TTY assistance.

SUPPLEMENTARY INFORMATION: Under the Act, the Service maintains a list of endangered and threatened wildlife and plant species (List) at 50 CFR 17.11 and 17.12. Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every five years. Section 4(c)(2)(B) requires that we

determine: (1) Whether a species no longer meets the definition of threatened or endangered and should be removed from the List (delisted); (2) whether a species more properly meets the definition of threatened and should be reclassified from endangered to threatened; or (3) whether a species more properly meets the definition of endangered and should be reclassified from threatened to endangered. Using the best scientific and commercial data available, a species will be considered for delisting if the data substantiates that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification requires a separate rulemaking process. The regulations in 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the endangered Higgins eye, endangered Hungerford's crawling water beetle, threatened Missouri bladderpod, and endangered Running buffalo clover.

Public Solicitation of New Information

To ensure that the 5-year reviews are complete and based on the best available scientific and commercial information, we are soliciting new information from the public, concerned governmental agencies, tribes, the scientific community, industry, environmental entities, and any other interested parties concerning the status of Higgins eye, Hungerford's crawling water beetle, Missouri bladderpod, and Running buffalo clover.

A 5-year review considers the best scientific and commercial data and all new information that has become available since the listing determination or most recent status review. Requested information includes (A) species biology, including but not limited to, population trends, distribution, abundance, demographics, and genetics; (B) habitat conditions, including but not limited to, amount, distribution, and suitability; (C) conservation measures that have been implemented that benefit the species; (D) threat status and trends; and (E) other new information, data, or corrections, including but not limited to, taxonomic or nomenclature changes, identification of erroneous information contained in the List, and improved analytical methods.
