

The EFI process is designed to allow provider-designated organizations (known as electronic file interchange organizations "EFIOs") to capture multiple providers' NPI application information on a single file. (This process is also referred to as "bulk enumeration.") To ensure that the EFIO has the authority to act on behalf of each provider and complies with other Federal requirements, the EFIO must sign a certification statement and mail it to CMS. The EFI process therefore cannot commence until the certification statement receives final OMB clearance.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* Certification Statement for Electronic File Interchange Organizations (EFIOS) that Submit National Provider Identifier (NPI) Data to the National Plan and Enumeration System; *Use:* The EFI process is designed to allow organizations to submit NPI application information for large numbers of providers in a single file. Once it has obtained and formatted the necessary provider data, the EFIO will electronically submit the file to NPPES for processing. As each file can contain up to approximately 100,000 records, or provider applications, the EFI process greatly reduces the paperwork and overall administrative burden associated with enumerating providers; *Form Number:* CMS-10175 (OMB#: 0938-NEW); *Frequency:* Other—One-time; *Affected Public:* Business or other for-profit, and Not-for-profit institutions; *Number of Respondents:* 2000; *Total Annual Responses:* 1000; *Total Annual Hours:* 3000.

CMS is requesting OMB review and approval of these collections by *December 30, 2005*, with a 180-day approval period. Written comments and recommendation will be considered from the public if received by the individuals designated below by *December 23, 2005*.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS' Web site address at <http://www.cms.hhs.gov/regulations/pra/>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov, or call the Reports Clearance Office on (410) 786-1326.

Interested persons are invited to send comments regarding the burden or any other aspect of these collections of information requirements. However, as noted above, comments on these information collection and recordkeeping requirements must be

mailed to the designees referenced below by *December 23, 2005*: Centers for Medicare and Medicaid Services, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development—B, Room C4-26-05, 7500 Security Boulevard, Baltimore, MD 21244-1850, Attn: William N. DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted the following information collection to the Office of Management and Budget (OMB) for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission describes the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort and resources used by respondents to respond) and cost, and includes the actual data collection instruments FEMA will use.

Collection of Information:

Title: Effectiveness of a Community's Implementation of the NFIP Community Assistance Program CAC and CAV Reports.

OMB Number: 1660-0023.

Abstract: This collection provides basic information about floodplain management program and contact information pertaining to NFIP participating communities. The information is used by FEMA and NFIP State Coordinating Agencies to identify problems with communities' floodplain management and determine assistance. The two key methods FEMA uses in determining community assistance needs are through the CAC and CAV, which serve to provide a systematic means of monitoring community NFIP compliance. Through the CAC and CAV, FEMA can also determine to what

extent communities are achieving the flood loss reduction objectives of the NFIP. By providing assistance to communities, the CAC and CAV also serve to enhance FEMA's goals of reducing future flood losses, thereby achieving the cost-containment objective of the NFIP.

Affected Public: State, Local, Tribal, and Federal Governments.

Number of Respondents: 3,000.

Estimated Time per Respondent: Two hours per respondent to complete the Community Visit Report (CAV), FF 81-68; and 1 hour per respondent to complete the Community Contact Report (CAC), FF 81-69.

Estimated Total Annual Burden Hours: 4,000 hours.

Frequency of Response: Once every five years per participating community.

Comments: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs at OMB, Attention: Desk Officer for the Department of Homeland Security/FEMA, Docket Library, Room 10102, 725 17th Street, NW., Washington, DC 20503, or facsimile number (202) 395-7285. Title: Revisions to National Flood Insurance Program Maps: Application Forms and Instructions for (C) LOMAs and (C) LOMR-Fs.

OMB Number: 1660-0015.

Abstract: The certification forms (referred to as MT-1 series forms) are designed to assist requesters in gathering information that FEMA needs to determine whether a certain property is likely to be flooded during a flood event that has a one-percent annual chance of being equaled or exceeded in any given year (base flood).

FEMA Form 81-87, Property Information, describes the location of the property, what is being requested, and what data are required to support the request.

FEMA Form 81-87A, Elevation Information, indicates what the Base (one-percent annual chance) Flood Elevation (BFE) for the property is, how the BFE was determined, the lowest ground elevation on the property, and/or the elevation of the lowest adjacent grade to any structures on the property. This information is required in order for FEMA to determine if the property that the requester would like removed from the SFHA is at or above the BFE.

FEMA Form 81-87B, Community Acknowledgment, requires that a community official certify that the request complies with minimum floodplain management criteria specified in 44 CFR 60.3, as per NFIP regulations 44 CFR 65.5(a)(4).
