Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA)

will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Networking Suicide Prevention Hotlines—Evaluation of the Lifeline Policies for Helping Callers at Imminent Risk (OMB No. 0930-0333)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Mental Health Services (CMHS) funds a National Suicide Prevention Lifeline Network ("Lifeline"), consisting of a toll-free telephone number that routes calls from anywhere in the United States to a network of local crisis centers. In turn, the local centers link callers to local emergency, mental health, and social service resources. This project is a revision of the Evaluation of Lifeline Policies for Helping Callers at Imminent Risk and builds on previously approved data collection activities [Evaluation of Networking Suicide Prevention Hotlines Follow-Up Assessment (OMB No. 0930-0274) and Call Monitoring of National Suicide Prevention Lifeline Form (OMB No. 0930-0275)]. The extension and revision data collection is an effort to advance the understanding of crisis hotline utilization and its impact.

The overarching purpose of the proposed Evaluation of the Lifeline Policies for Helping Callers at Imminent Risk is to implement data collection to evaluate hotline counselors' management of imminent risk callers and third party callers concerned about persons at imminent risk, and counselor adherence to *Lifeline Policies and Guidelines for Helping Callers at Imminent Risk of Suicide*. Specifically, the Evaluation of the Lifeline Policies for Helping Callers at Imminent Risk will collect data, using a revised imminent risk form, to inform the network's knowledge of the extent to

which counselors are aware of and being guided by the Lifeline’s imminent risk guidelines; counselors’ definitions of imminent risk; the rates of active rescue of imminent risk callers; types of rescue (voluntary or involuntary); barriers to intervention; circumstances in which active rescue is initiated, including the caller’s agreement to receive the intervention, profile of imminent risk callers; and the types of interventions counselors used with them.

Clearance is being requested for one activity to assess the knowledge, actions, and practices of counselors to aid callers who are determined to be at imminent risk for suicide and who may require active rescue. This evaluation will allow researchers to examine and understand the actions taken by counselors to aid imminent risk callers, the need for active rescue, the types of interventions used, and, ultimately, improve the delivery of crisis hotline services to imminent risk callers. A total of eight new centers will participate in this evaluation. Thus, SAMHSA is requesting OMB review and approval of the National Suicide Prevention Lifeline—Imminent Risk Form-Revised.

Crisis counselors at eight new participating centers will record information discussed with imminent risk callers on the Imminent Risk Form-Revised, which does not require direct data collection from callers. As with previously approved evaluations, callers will maintain anonymity. Counselors will be asked to complete the form for 100% of imminent risk callers to the eight centers participating in the evaluation. This form requests information in 15 content areas, each with multiple sub-items and response options. Response options include open-ended, yes/no, Likert-type ratings, and multiple choice/check all that apply. The form also requests demographic information on the caller, the identification of the center and counselor submitting the form, and the date of the call. Specifically, the form is divided into the following sections: (1) Counselor information, (2) center information, (3) call characteristics (e.g., line called, language spoken, participation of third party), (4) suicidal desire, (5) suicidal intent, (6) suicidal capability, (7) buffers to suicide, (8) interventions agreed to by caller or implemented by counselor without

caller’s consent, (9) whether imminent risk was reduced enough such that active rescue was not needed, (10) interventions for third party callers calling about a person at imminent risk, (11) whether supervisory consultation occurred during or after the call, (12) barriers to getting needed help to the person at imminent risk, (13) steps taken to confirm whether emergency contact was made with person at risk, (14) outcome of attempts to rescue person at risk, and (15) outcome of attempts to follow-up on the case. The revised form reduces and streamlines responses options for intervention questions. It also adds information about the center, the call (e.g., language and military service), interventions (e.g., supervisor contact, rescue initiation), and follow-up/outcome. The form will take approximately 15 minutes to complete and may be completed by the counselor during or after the call. It is expected that a total of 750 forms will be completed by 132 counselors over the three-year data collection period.

The estimated response burden to collect this information is annualized over the requested three-year clearance period and is presented below:

TOTAL AND ANNUALIZED BURDEN: RESPONDENTS, RESPONSES AND HOURS

Instrument	Number of respondents	Responses/ respondent	Total responses	Hours per response	Total hour burden
National Suicide Prevention Lifeline—Imminent Risk Form-Revised	132	1.9	250	.26	65

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Notice of Issuance of Final Determination Concerning Various Elliptical Exercise Machines and Option Package Kits

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of final determination.

SUMMARY: This document provides notice that U.S. Customs and Border Protection (“CBP”) has issued a final determination concerning the country of origin of various elliptical exercise machines manufactured and distributed by Octane Fitness, and their option package kits that add from three products to the elliptical exercise machines. Based upon the facts presented, CBP has concluded that Taiwan is the country of origin of the elliptical exercise machines and two of the option package kits, and China for one option package kit, for purposes of U.S. Government procurement.

DATES: The final determination was issued on October 16, 2014. A copy of the final determination is attached. Any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of this final determination within November 24, 2014.

FOR FURTHER INFORMATION CONTACT: Antonio J. Rivera, Valuation and Special Programs Branch, Regulations and

Rulings, Office of International Trade, (202) 325–0226.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on October 16, 2014 pursuant to subpart B of Part 177, U.S. Customs and Border Protection Regulations (19 CFR part 177, subpart B), CBP has issued a final determination concerning the country of origin of various elliptical exercise machines, and their option package kits, manufactured and distributed by Octane Fitness, which may be offered to the U.S. Government under an undesignated government procurement contract. This final determination, HQ H248696, was issued under procedures set forth at 19 CFR Part 177, subpart B, which implements Title III of the Trade Agreement Act of 1979, as amended (19 U.S.C. 2511–18). In the final determination, CBP concluded that, based upon the facts presented, the assembly operations for the elliptical exercise machines performed in Taiwan, using a majority of Taiwanese components, substantially transformed
