

Service identified Alternative 3—Increased Curtailment as the environmentally preferred alternative in the RODs.

Decision and Rationale for Decision

Based on our review of the alternatives and their environmental consequences as described in our FPEIS, we have selected the proposed action alternative (Alternative 2) for all four projects. The proposed action includes each applicant's implementation of their final HCP or HCP amendment, and the Service's issuance of an ITP authorizing take of the covered species that may occur incidental to the continued operation of each project.

In order to issue each ITP under the ESA, we must determine that each of the HCPs meets the issuance criteria set forth in 16 U.S.C. 1539(a)(2)(A) and (B). We have made that determination for each HCP, as described further in their respective RODs.

Authority

We provide this notice in accordance with the requirements of section 10(c) of the ESA (16 U.S.C. 1539(c)) and its implementing regulations (50 CFR 17.22 and 17.32), and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6; 43 CFR part 46).

Robyn Thorson,

Regional Director, U.S. Fish and Wildlife Service, Portland, Oregon.
