

panel to consider or if it relates to the clarity or accuracy of the technical information.

**Oral Statements:** In general, individuals or groups requesting an oral presentation will be limited to three minutes per speaker for each teleconference. Interested parties should contact Dr. Holly Stallworth, DFO, in writing (preferably via email), at the contact information noted above, by June 29, 2015 to be placed on the list of public speakers for the July 6, 2015 teleconference; by July 30, 2015 for the August 6, 2015 teleconference; and by September 2, 2015 for the September 9, 2015 teleconference. **Written Statements:** Written statements should be received in the SAB Staff Office in advance of each teleconference according to the same deadlines listed above for requesting oral comments. Written statements should be supplied to the DFO, preferably in electronic format via email. It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

**Accessibility:** For information on access or services for individuals with disabilities, please contact Dr. Stallworth at the phone number or email address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: May 28, 2015.

**Thomas H. Brennan,**  
Deputy Director, EPA Science Advisory Board  
Staff Office.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9928-61-ORD]

### Office of Research and Development; Ambient Air Monitoring Reference and Equivalent Methods: Designation of One New Reference Method and Four New Equivalent Methods

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of designation of one reference method and three equivalent methods for monitoring ambient air quality.

**SUMMARY:** Notice is hereby given that the Environmental Protection Agency (EPA) has designated, in accordance with 40 CFR part 53, one new reference method and one new equivalent for measuring concentrations of PM<sub>2.5</sub>, one new equivalent method for measuring PM<sub>10-2.5</sub>, and two new equivalent methods for measuring ozone (O<sub>3</sub>) in the ambient air.

**FOR FURTHER INFORMATION CONTACT:** Robert Vanderpool, Human Exposure and Atmospheric Sciences Division (MD-D205-03), National Exposure Research Laboratory, U.S. EPA, Research Triangle Park, North Carolina 27711. Email: [Vanderpool.Robert@epa.gov](mailto:Vanderpool.Robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with regulations at 40 CFR part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQSs), as set forth in 40 CFR part 50. Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference methods or equivalent methods (as applicable), thereby permitting their use under 40 CFR part 58 by States and other agencies for determining compliance with the NAAQSs.

The EPA hereby announces the designation of one new reference method for measuring PM<sub>2.5</sub>, one new equivalent method for measuring PM<sub>2.5</sub>, one new equivalent method for measuring PM<sub>10-2.5</sub>, and two equivalent methods for measuring ozone (O<sub>3</sub>) in the ambient air. These designations are made under the provisions of 40 CFR part 53, as amended on August 31, 2011 (76 FR 54326-54341).

The new reference method for PM<sub>2.5</sub> is a manual monitoring method based on a particular PM<sub>2.5</sub> sampler and is identified as follows:
