Middle Fork John Day Range Planning on the Blue Mountain and Prairie City Ranger Districts; Malheur National Forest; Grant Count, OR

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an environmental impact statement.

SUMMARY: On February 25, 1999, the USDA Forest Service published a Notice of Intent (NOI) in the **Federal Register** (64 FR 9305) to prepare an environmental impact statement (EIS) to update range management planning on 8 livestock grazing allotments which will result in the development of new Allotment Management Plans (AMPs). The Forest Service is revising the name of the analysis, the proposed action, the dates the EIS is expected to be available for public review and comment, and the release of the final EIS.

The revised NOI changes the name of this project to reflect an official change in Ranger District names. The new project name replaces Long Creek/Bear Valley Ranger District with Blue Mountain Ranger District. The revised proposed action includes constructing or reconstructing 12 additional water developments and 31 additional miles of fence across the project area. It also added repairing an irrigation ditch and relocating unit fences in Camp Creek allotment. The revised proposed action would adjust three allotments in the following ways—the number of units in the Lower Middle Fork allotment would be increased from five to seven units; the Austin allotment would be incorporated into the Upper Middle Fork Allotment and used as a holding/gathering pasture (rather than eliminated and fences removed); in addition, 80 acres of the Austin Allotment within the Middle Fork John

Day River riparian zone would be excluded from livestock grazing (to reduce potential effects to aquatic species). The revised proposed action no longer involves eradication of noxious weeds. This activity will be analyzed in a Region 6 EIS and has been analyzed in a Malheur National Forest Environmental Assessment.

Additionally, 5,000 acres of prescribed burning to improve forage production and some fence and cattleguard construction has already been completed and will no longer be included in the revised proposed action.

Management actions are planned to be implemented beginning in the year 2004. The revised date of filing the draft EIS is January 2003, and the revised date of filing the final EIS is June 2003.

DATES: Comments concerning the scope of this revised analysis should be received in writing by September 16, 2002.

Heavy Forged Hand Tools from the People's Republic of China: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: August 19, 2002.

FOR FURTHER INFORMATION CONTACT:

Thomas Martin at (202) 482-3936, AD/CVD Enforcement, Office 4, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

TIME LIMITS:

Background

On March 16, 2001, the Department published a notice of initiation of administrative reviews of the antidumping duty orders on heavy forged hand tools from the People's Republic of China, covering the period February 1, 2000 through January 31, 2001 (66 FR 16037). The preliminary results were published on March 6, 2002, and in those preliminary results we extended the time limit for the final results until no later than August 27, 2002, 174 days after the date of publication of the preliminary results.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete its final results within 120 days after the date on which the preliminary results were published. However, the Department may extend the deadline for completion of an administrative review if it determines that it is not practicable to complete the review within the statutory time limit. Section 751(a)(3)(A) of the Act allows the Department to extend the deadline for completion of the final results to 180 days from the date of publication of the preliminary results. As a result of the complex issues involved, it is not practicable to complete these reviews by August 27, 2002, and we are extending the time limit to 180 days after the publication of the preliminary results. See Decision Memorandum from Holly Kuga to Bernard T. Carreau, dated concurrently with this notice, which is on file in the
