

Act facilities when such requests are contested before order issuance. For those extension requests that are contested,² the Commission will aim to issue an order acting on the request within 45 days.³ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁴ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.⁵ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁶ The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

SUPPLEMENTARY INFORMATION:

Title: FERC-539 (Gas Pipeline Certificates: Import & Export Related Applications).

OMB Control No.: 1902-0062.

Type of Request: Three-year extension of the FERC-539 with no changes to the current reporting requirements.

Abstract: The purpose of FERC-539 is to implement information collections pursuant to Section 3 of the Natural Gas Act (NGA).¹ This statute provides, in part, that "... no person shall export any natural gas from the United States to a foreign country or import any natural gas from a foreign country without first having secured an order from the Commission authorizing it to do so."² This statute applies not only to natural gas imported and/or exported via pipeline but also to any import and/or export of liquefied natural gas via a liquefied natural gas terminal. The 1992 amendments to Section 3 of the NGA concern importation or exportation from/to a nation which has a free trade agreement with the United States, and requires that such importation or exportation: (1) Shall be deemed to be a "first sale", *i.e.*, not a sale for a resale, and (2) Shall be deemed to be consistent with the public interest, and applications for such importation or exportation shall be granted without modification or delay.

*Estimate of Annual Burden:*³ The Commission estimates the annual public reporting burden for the information collection as:

² Contested proceedings are those where an intervenor disputes any material issue of the filing. 18 CFR 385.2201(c)(1) (2019).

³ *Algonquin Gas Transmission, LLC*, 170 FERC ¶ 61,144, at P 40 (2020).

⁴ *Id.* at P 40.

⁵ Similarly, the Commission will not re-litigate the issuance of an NGA section 3 authorization,

including whether a proposed project is not inconsistent with the public interest and whether the Commission's environmental analysis for the permit order complied with NEPA.

⁶ *Algonquin Gas Transmission, LLC*, 170 FERC ¶ 61,144, at P 40 (2020).

¹ 15 U.S.C. 717-717w.

² 15 U.S.C. 717b.

³ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. See 5 CFR 1320 for additional information on the definition of information collection burden.

Comments: Comments are invited on: (1) whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collections of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collections; and (4) ways to minimize the burden of the collections of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

reviewers, EPA asked ERG, the independent contractor organizing the peer review, to identify additional candidates to strengthen expertise gaps and allow a more balanced panel. EPA is seeking public comment on additional peer review candidates in order to strengthen underrepresented areas of expertise, specifically economics, water quality, and ecology disciplines. You may also comment on the initial twenty (20) candidates if you have not yet done so. If you already commented on those initial candidates in response to the May 9, 2022, FRN, you do not need to resubmit those comments. After considering all public comments on the initial pool of 20 candidates and the additional candidates announced in this FRN, ERG will select up to nine (9) peer reviewers. ERG will ensure the peer reviewers' combined expertise best spans the following disciplines: economics, engineering, agronomics, land use change, remote sensing, air quality, biogeochemistry, water quality, hydrology, conservation biology, limnology, and ecology. The peer review will be conducted under the framework of EPA's Scientific Integrity Policy (https://www.epa.gov/sites/default/files/2014-02/documents/scientific_integrity_policy_2012.pdf) and follow procedures established in EPA's Peer Review Handbook 4th Edition, 2015 (EPA/100/B-15/001).

DATES: The 15-day public comment period on the additional list of proposed peer review candidates begins August 1, 2022 and ends August 16, 2022.

Comments must be received on or before August 16, 2022.

ADDRESSES: Please follow the instructions as provided in the section of this notice entitled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Questions concerning the process for forming the peer review panel should be directed to EPA's contractor, ERG, by email to peerreview@erg.com (subject line: RtC3 Peer Review). For information on the period of submission, contact the
