

1420, respectively, of the Safe Drinking Water Act. The information collection for the Tribal Operator Certification Program is driven by grant eligibility requirements outlined in the Drinking Water Infrastructure Grant Tribal Set-Aside Program Final Guidelines and the Tribal Drinking Water Operator Certification Program Guidelines.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are new and existing public water systems and primacy agencies.

Respondent's obligation to respond: Mandatory for compliance with 40 CFR parts 141 and 142.

Estimated number of respondents: 148,674 (total).

Frequency of response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually, and annually).

Total estimated burden: 3,643,372 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$192,654,000 (per year), includes \$38,121,000 in operation and maintenance costs.

Changes in the estimates: There is a decrease of 125,841 hours in the total estimated annual respondent burden compared with the ICR currently approved by OMB. This decrease is a result of: Updating relevant baseline information for each rule with the most current and accurate information available (*e.g.*, public water system inventory); and, updating burden to include expected reductions associated with use of a cloud-based reporting database. Where appropriate and available, estimated violation and other associated rates have also been updated to reflect current information on rule compliance.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2004-0501; FRL-9989-10-OEI]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Green Power Partnership and Combined Heat and Power Partnership (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an

information collection request (ICR), Green Power Partnership and Combined Heat and Power Partnership (EPA ICR Number 2173.07, OMB Control Number 2060-0578) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested via the **Federal Register** on September 14, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 22, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number Docket ID No. EPA-HQ-OAR-2004-0501, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epamail.epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Christopher Kent, Climate Protection Partnerships Division, Office of Atmospheric Programs, MC 6202A Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-343-9046; fax number: 202-343-2208; email address: kent.christopher@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744.

For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: In 2002, EPA's Energy Supply and Industry Branch (ESIB) launched two partnership programs with industry and other stakeholders: The Green Power Partnership (GPP) and the Combined Heat and Power Partnership (CHPP). These voluntary partnership programs, along with others in the ESIB, encourage organizations to invest in clean, efficient energy technologies, including renewable energy and combined heat and power. To continue to be successful, it is critical that EPA collect information from these program stakeholders to ensure these organizations are meeting their clean energy goals and to assure the credibility of these voluntary non-regulatory programs.

EPA has developed this ICR to obtain authorization to collect information from organizations participating in the GPP and CHPP, and other ESIB voluntary programs. Organizations that join these programs voluntarily agree to the following respective actions: (1) Designating a Green Power or CHP liaison and filling out a Partnership Agreement or Letter of Intent (LOI) respectively, (2) for the GPP, reporting to EPA, on an annual basis, their progress toward their green power commitment via a 3-page reporting form; (3) for the CHP Partnership, reporting to EPA information on their existing CHP projects, new project development, and other CHP-related activities via a one-page reporting form (for projects) or via an informal email or phone call (for other CHP-related activities). In addition to these actions, organizations may voluntarily apply for recognition to the programs' established annual recognition events, which require submitting additional information. EPA uses the data obtained from its Partners to assess the success of these programs in achieving their national energy and greenhouse gas (GHG) reduction goals. Partners are organizational entities that have volunteered to participate in either Partnership program.

Form numbers: EPA-430-K-013, EPA-430-F-05-034; EPA-5900-353.

Respondents/affected entities: Company, institutional, and public-sector organizations that voluntarily participate in the EPA's Green Power Partnership (GPP) or Combined Heat and Power Partnership (CHPP). These include both service and goods providing industries, educational institutions and non-governmental organizations, commercial and

industrial organizations, and local, state, or federal government agencies.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 6,871 (total).

Frequency of response: Annually, on occasion, one time.

Total estimated burden: 6,598 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$731,382 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the estimates: There is minimal decrease in hours in the total estimated respondent burden compared with the ICR currently approved by OMB. Since the last ICR renewal, both the GPP and CHPP have introduced program efficiencies to reduce program burden and simplified collection forms into pre-populated spreadsheets or documents. As a result of these changes, the average number of hours per Partner has decreased from 3.2 hours to 2.87 hours, even though the total hour burden for Partners increased due to an increase in the number of Partners.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2003-0026; FRL-FRL-9989-52-OEI]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; National Water Quality Inventory Reports (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), National Water Quality Inventory Reports (EPA ICR Number 1560.12, OMB Control Number 2040-0071) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested via the **Federal Register** on August 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public

comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 22, 2019.

Johnson, Watershed Restoration, Assessment and Protection Division (WRAPD), Office of Water, Mail Code: 4503T, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-1679; fax number: 202-566-1336; email address: Johnson.CynthiaN@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Clean Water Act Section 305(b) reports contain information on whether waters assessed by a state meet the state's water quality standards, and when waters are impaired, the pollutants and potential sources affecting water quality. This information helps States and the public track progress in addressing water pollution. Section 303(d) of the Clean Water Act requires States to identify and rank waters that cannot meet water quality standards (WQS) following the

implementation of technology-based controls. Under Section 303(d), States are also required to establish total maximum daily loads (TMDLs) for listed waters not meeting standards because of pollutant discharges. In developing the Section 303(d) lists, States are required to consider various sources of water quality related data and information, including the Section 305(b) State water quality reports. Section 106(e) requires that states annually update monitoring data and use it in their Section 305(b) report. Section 314(a) requires states to report on the condition of their publicly owned lakes within the Section 305(b) report.

During the period covered by this ICR renewal, respondents will: Complete their 2020 Section 305(b) reports and 2020 Section 303(d) lists; complete their 2022 Section 305(b) reports and 2022 Section 303(d) lists; transmit annual electronic updates of ambient monitoring data via the Water Quality Exchange; and continue to develop TMDLs according to their established schedules. EPA will prepare biennial updates on assessed and impaired waters for Congress and the public for the 2020 reporting cycle and for the 2022 cycle, and EPA will review 303(d) list and TMDL submissions from respondents.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are States, Territories and Tribes with Clean Water Act (CWA) responsibilities.

Respondent's obligation to respond: Mandatory: Integrated Water Quality Inventory Reports (Clean Water Act Sections 305(b), 303(d), 314(a), and 106(e)).

Estimated number of respondents: 59 (total).

Frequency of response: Biennial.

Total estimated burden: 3,718,130 (per year) hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$211,716,534 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in estimates: There is an estimated decrease of 21,887 of total burden hours per year. EPA has completed phase 1 of the Water Quality Framework, which is a new way of integrating EPA's data and information systems to more effectively support reporting and tracking water quality protection and restoration actions. Phase 1 streamlined water quality assessment and reporting by reducing transactions associated with paper copy reviews and increasing electronic data exchange. The system to support this
