The MOU would allow ODOT to act in the place of FHWA in carrying out the environmental review-related functions described above, except with respect to government-to-government consultations with federally recognized Indian tribes. The FHWA will retain responsibility for conducting formal government-to-government consultation with federally recognized Indian tribes, which is required under some of the listed laws and executive orders. The ODOT will continue to handle routine consultations with the tribes and understands that a tribe has the right to direct consultation with FHWA upon request. The ODOT also may assist FHWA with formal consultations, with consent of a tribe, but FHWA remains responsible for the consultation. The ODOT also will not assume FHWA's responsibilities for conformity determinations required under Section 176 of the Clean Air Act (42 U.S.C. 7506) or any responsibility under 23 U.S.C. 134 or 135, or under 49 U.S.C. 5303 or 5304.

A copy of the proposed MOU may be viewed on the DOT DMS Docket, as described above, or may be obtained by contacting the FHWA or the State at the addresses provided above. A copy also may be viewed on ODOT's Web site at <http://www.dot.state.oh.us/NEPA-Assignment/Pages/default.aspx>.

The FHWA Ohio Division, in consultation with FHWA Headquarters, will consider the comments submitted

when making its decision on the proposed MOU revision. Any final MOU approved by FHWA may include changes based on comments and consultations relating to the proposed MOU and will be made publicly available.

An electronic copy of this document may be downloaded from the **Federal Register's** home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for use of non-domestic Voith 21/R5 propulsion units to replace the existing propulsion units, Voith 24/65, which have reached the end of their useful life.

In accordance with Division K, section 122 of the "Consolidated and Further Continuing Appropriations Act, 2015" (Pub. L. 113–235), FHWA published a notice of intent to issue a waiver on its Web site (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=112>) on August 18. The FHWA received no comments in response to the publication. During the 15-day comment period, FHWA conducted an additional review to locate potential domestic manufacturers of propulsion units that are equivalent to Voith 21/R5 units. Based on all the information available to the agency, FHWA concludes that there are no domestic manufacturers of propulsion units that are equivalent to Voith 21/R5 units.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110–244, 122 Stat. 1572), FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to FHWA's Web site via the link provided to the waiver page noted above.
