SUPPLEMENTARY INFORMATION:

I. Background

The Consolidated Health Informatics (CHI) initiative began in October 2001 as one of 24 E-Government initiatives included in the President's Management Agenda (PMA). The CHI initiative is a collaborative effort to adopt Federal government-wide health information interoperability standards to be implemented by Federal agencies in order to enable the Federal government to exchange electronic health information.

On May 6, 2004, the Secretary of the Department of Health and Human Services (HHS) announced the adoption by HHS, the Department of Defense, the Department of Veterans Affairs, the Office of Management and Budget, and other participating Federal partners of 15 healthcare messaging and vocabulary standards recommended by the CHI initiative (<http://www.hhs.gov/news/press/2004pres/20040506.html>). The adoption of these standards supplemented the first 5 standards adopted on March 21, 2003 (<http://www.hhs.gov/news/press/2003pres/20030321a.html>), thereby completing the initial CHI portfolio.
