DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2013-0027]

P25 Compliance Assessment Program for Communications Equipment

AGENCY: Science and Technology Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: The Department of Homeland Security is seeking Expressions of Interest from laboratory accreditation bodies, which are International Laboratory Accreditation Cooperation (ILAC) Full Members and signatories to the ILAC mutual recognition arrangements (MRAs) and which are capable of providing accreditation services for laboratories participating in the Project 25 (P25) Compliance Assessment Program (P25 CAP).

P25 is a standard which enables interoperability among digital two-way land mobile radio communications products created by and for public safety professionals. P25 CAP is a formal, independent process for ensuring that communications equipment that is declared by the manufacturer to be P25 compliant in fact meets P25 standards. Accreditation of the test laboratories that carry out the compliance assessment is currently conducted by P25 CAP itself, but DHS is considering a transition to

compliance assessment by third-party laboratory accreditation organizations.

As a first step in the process, the DHS is gauging interest from laboratory accreditation bodies. This Request for Expressions of Interest (REI) is for information and planning purposes only. It is not a broad agency announcement, Request for Proposals or Quotations, or other form of solicitation for bids, and it is not a commitment or obligation by DHS to make award of any contractual instrument or make any payment.

DATES: May 28, 2013.

ADDRESSES: Expressions of interest should be submitted to SandTFRG@hq.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Cuong Luu, Program Manager, Office for Interoperability and Compatibility, U.S. Department of Homeland Security, tel: 202-254-6374, cuong.luu@hq.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

P25 is a standards development process for the design, manufacture, and evaluation of interoperable digital two-way land mobile radio communications products created by and for public safety professionals. The goal of P25 is to specify formal standards for interfaces between the various components of a land mobile radio system commonly used by emergency responders in portable handheld and mobile vehicle-mounted devices. The P25 standard enables interoperability among different manufacturers' products.

P25 CAP was developed by DHS and the National Institute of Standards and Technology (NIST) to identify equipment that complies with P25 standards. P25 CAP provides first responders with documentation of interoperability they need to inform their purchasing decisions. P25 CAP is a voluntary program that allows manufacturers to publicly attest to their products' compliance with P25 standards through a Suppliers' Declaration of Compliance Document (SDoC), substantiated by an Official Summary Test Report.
