

action are those which manufacture, sell, distribute and/or use oil spill dispersants, other chemicals, and other spill mitigating devices and substances that may be used in carrying out the NCP, as listed in 40 CFR 300.900 on land or waters of the United States.

Estimated Number of Respondents: 14.

Frequency of Response: Respondents must submit information only when they apply to list a new product on the Schedule, or when the composition, formulation, application, or contact information of a product currently listed on the Schedule is changed.

Estimated Total Annual Hour Burden: 390.

Estimated Total Annual Cost: \$95,558, includes \$82,800 annualized capital, \$0 O&M costs, and \$12,758 labor costs.

Changes in the Estimates: There is a decrease of 436 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to the following three adjustments to the estimates: (1) Manufacturers will apply to list 14 new oil spill mitigating agents on the Schedule per year over a three-year period versus an estimated 28 per year during the three-year period of the current ICR; (2) a decrease in the number of sorbent manufacturer certification requests per year (from 20 to 10); and (3) a decrease in the burden estimate per sorbent manufacturer respondent (from 5 to 3 hours).

Dated: January 7, 2004.

Doreen Sterling,
Acting Director, Collection Strategies Division.

National Dialogue on EPA's Draft Report on the Environment, 2004

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: The Office of Environmental Information, the Office of Research and Development and EPA's Regional Offices are conducting national dialogue sessions with a broad spectrum of stakeholders to solicit feedback on the Draft Report on the Environment issued June 26, 2003. EPA conducted 5 sessions in November and December 2003 and invited representatives from

State governments, tribes, academia, non-governmental organizations, local agencies and business and industry. The meetings were announced in the October 15, 2003 **Federal Register** and were held in Chicago, Atlanta, San Francisco, Seattle and Dallas. EPA plans to conduct an additional session in Philadelphia on February 12, 2004. Interested members of the general public may attend the meeting and will have an opportunity to provide comment at an appointed time during the session. Because space is limited, those planning to attend must RSVP to the individual listed in the **FOR FURTHER INFORMATION CONTACT** no later than one week before the meeting. The information contact will also provide the specific meeting location as well as directions.

DATES: The date for the dialogue session is February 12, 2004, from 9 a.m. to 4:30 p.m.

FOR FURTHER INFORMATION CONTACT:

Dawn Banks-Waller, Office of Environmental Information, Office of Information Analysis and Access, Environmental Analysis Division, (2842T), U.S. EPA, 1200 Pennsylvania Ave NW., Washington DC 20460. Telephone (202) 566-0625, fax (202) 566-1066 or e-mail banks-waller.dawn@epa.gov.

SUPPLEMENTARY INFORMATION: On June 26, 2003, EPA released the Draft Report on the Environment (RoE) and its accompanying Technical Document. The report presents its first-ever national picture of the U.S. environment. The report describes what EPA knows—and doesn't know—about the current state of the environment at the national level, and how the environment is changing. The report highlights the progress our nation has made in protecting its air, water, and land resources and describes the measure that can be used to track the status of the environment and human health.

EPA has issued the report as a draft to stimulate dialogue and invite input into developing and improving environmental indicators in the future. The national dialogue sessions are a first step in soliciting feedback on the report and will focus on:

- Assessing the quality, structure, relevance, appropriateness of, and needed improvements to the reports,
- Identifying additional or new questions/indicators, changes in indicators, gaps, indicator improvements, etc., and
- Assessing the use of the report for planning and decision making.

Feedback obtained from these sessions will be used to shape the next and future editions of the Report.

To view, download, or order hardcopies of the RoE and the Technical Document or to provide comments on the documents, please visit the EPA Environmental Indicators Initiative Web site at <http://www.epa.gov/indicators/roe/>.

Dated: January 12, 2004.

Mike Flynn,

Director, Office of Information Analysis and Access.
