DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2008-0063]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 23, 2018, the Memphis Area Transit Authority (MATA) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at Title 49 CFR. FRA assigned the petition Docket Number FRA-2008-0063.

In its petition, MATA seeks to extend the terms and conditions of its Shared Use waiver, originally granted by FRA's Railroad Safety Board (Board) on October 31, 2008, and extended in 2013. MATA seeks a permanent waiver of compliance from some sections of Title 49 of the CFR for operation of its vintage Riverfront Streetcar line, which features "limited connections" to the general railroad system, including a 1.5-mile shared corridor with the Canadian National Railway (CN) and Amtrak. This shared corridor includes a diamond at-grade rail crossing of the CN/Amtrak track by the Streetcar and 11 shared highway-rail grade crossings. All shared highway-rail at-grade crossings have signalized crossing protection. Also, the diamond at-grade rail crossing is fully interlocked and signaled. All maintenance of the right-of-way is performed by CN forces. MATA ceased operation of its streetcars in 2014 after two fires onboard its rolling stock. MATA hopes to reopen the Riverfront Streetcar line in summer 2018 with overhauled/rebuilt streetcars.

MATA again seeks partial relief from 49 CFR part 225, *Railroad Accidents/Incidents: Reports Classification and Investigations*, regarding employee injuries, because it already reports them to the Federal Transit Administration and the Occupational Safety and Health Administration.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. Total Annual Burden: 1,392 hours.

Needs and Uses: Program uses for Form 298-C financial data are as follows:

Mail Rates

The Department of Transportation sets and updates the Intra-Alaska Bush mail rates based on carrier aircraft operating expense, traffic, and operational data. Form 298-C cost data, especially fuel costs, terminal expenses, and line haul expenses are used in arriving at rate levels. DOT revises the established rates based on the percentage of unit cost changes in the carriers' operations. These updating procedures have resulted in the carriers receiving rates of compensation that more closely parallel their costs of providing mail service and contribute to the carriers' economic well-being.

Essential Air Service

DOT often has to select a carrier to provide a community's essential air service. The selection criteria include historic presence in the community, reliability of service, financial stability and cost structure of the air carrier.

Carrier Fitness

Fitness determinations are made for both new entrants and established U.S. domestic carriers proposing a substantial change in operations. A portion of these applications consists of an operating plan for the first year (14 CFR part 204) and an associated projection of revenues and expenses. The carrier's operating costs, included in these projections, are compared against the cost data in Form 298-C for a carrier or carriers with the same aircraft type and similar operating characteristics. Such a review validates the reasonableness of the carrier's operating plan.

The quarterly financial submissions by commuter and small certificated air carriers are used in determining each carrier's continuing fitness to operate. Section 41738 of Title 49 of the United States Code requires DOT to find all commuter and small certificated air carriers fit, willing, and able to conduct passenger service as a prerequisite to providing such service to an eligible essential air service point.
