SUPPLEMENTARY INFORMATION: CBP invites the general public and other Federal agencies to comment on the proposed and/or continuing information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). This process is conducted in accordance with 5 CFR 1320.8. Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological

collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

Overview of This Information Collection

Title: Arrival and Departure Record and Electronic System for Travel Authorization (ESTA).

OMB Number: 1651-0111.

Form Number: N/A.

Current Actions: Revision of an existing information collection.

Type of Review: Revision.

Affected Public: Individuals.

Abstract: CBP is implementing a new capability within CBP One™ to allow nonimmigrants who are subject to Form I-94 ("I-94") requirements, and who are departing the United States, to voluntarily provide biographic data, facial images, and geolocation to provide evidence of that departure. This collection is a part of CBP's critical efforts in fulfilling DHS's mandate to collect biometric information from departing nonimmigrants and CBP's plans to fully automate I-94 information collection. This capability will close the information gap on nonimmigrant entries and exits by making it easier for nonimmigrants subject to I-94 requirements to report their exit to CBP after their departure from the United States. It will also create a biometrically confirmed, and thereby more accurate, exit record for such nonimmigrants leaving the United States.

Certain nonimmigrants subject to I-94 requirements may voluntarily submit their facial images using the CBP One™ mobile application (the app) in order to report their exit from the United States.

Nonimmigrants may use the app to voluntarily submit their biographic information from their passports, or other traveler documents after they have exited the United States.

Nonimmigrants will then use the app to take a "selfie" picture. CBP will utilize geolocation services to confirm that the nonimmigrant is outside the United States as well as run "liveness detection" software to determine that the selfie photo is a live photo, as opposed to a previously uploaded photo. The app will then compare the live photo to facial images for that person already retained by CBP to confirm the exit biometrically.

CBP will utilize this information to help reconcile a nonimmigrant's exit with that person's last arrival. The report of exit will be recorded as a biometrically confirmed departure in
