

provide valuable information on the scope of outreach to new clients and clients who have had a lapse in service, which could be an indication of reengagement in care. This module will support project officer monitoring and HRSA's understanding of service provision. Finally, the information collected in the EHE Triannual Report will complement the annual information collected through the RWHAP Services Report and other reporting mechanisms and support

HRSA in its ability to monitor EHE initiative activities and assess progress toward meeting national goals for ending the HIV epidemic.

Likely Respondents: RWHAP part A and part B Recipients and Subrecipients funded by the EHE initiative.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize

technology and systems for the purpose of collecting, validating, and verifying information, processing, and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
EHE Triannual Module	47	3	141	2	282
	47	141	282

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
