**Analysis of Proposed Consent Order To Aid Public Comment**

The Federal Trade Commission (“FTC” or “Commission”) has accepted, subject to final approval, an agreement containing a consent order from

ExotoUSA LLC, d/b/a Old Southern Brass, and Austin Oliver (“Respondents”).

The proposed consent order has been placed on the public record for 30 days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After 30 days, the Commission will again review the agreement and the comments received and decide whether it should withdraw from the agreement or make final the agreement’s proposed order. This matter involves Respondents’ advertising of glassware, mugs, pens, and other novelty items as made in the United States and claims of association with the U.S. military.

According to the FTC’s complaint, Respondents (1) deceptively advertised certain products as made in the United States even though, in numerous instances, they were wholly imported, and (2) falsely claimed ExotoUSA LLC is veteran-operated, donates 10% of sales to military service charities, and incorporates bullets or bullet casings fired by the U.S. military into its products. Based on the foregoing, the complaint alleges Respondents violated section 5 of the Federal Trade Commission Act, 15 U.S.C. 45(a).

The proposed consent order contains provisions designed to prevent Respondents from engaging in similar acts and practices in the future. Consistent with the FTC’s Made in USA Labeling Rule, 16 CFR part 323, and its Enforcement Policy Statement on U.S.-Origin Claims, 62 FR 63756, 63768 (Dec. 2, 1997), Part I prohibits Respondents from making U.S.-origin claims for their products unless: (1) the final assembly or processing of the product occurs in the United States, all significant processing that goes into the product occurs in the United States, and all or virtually all ingredients or components of the product are made and sourced in the United States; (2) a clear and conspicuous qualification appears immediately adjacent to the representation that accurately conveys the extent to which the product contains foreign parts, ingredients or components, and/or processing; or (3) for a claim that a product is assembled in the United States, the product is last substantially transformed in the United States, the product’s principal assembly takes place in the United States, and United States assembly operations are substantial.

Part II prohibits Respondents from making any representation, including any claim about the country of origin of a product or service or any claim Respondents have an association with the U.S. military, unless the

representation is not misleading and Respondents have a reasonable basis substantiating it.

Parts III through V are monetary provisions. Part III imposes a judgment of \$4,572,137.66 and partially suspends that judgment on the basis of the Respondents' sworn financial statements. If the Commission concludes any Respondent made a material misrepresentation or omission in that Respondent's sworn financial statement, the suspension as to that Respondent is lifted and the full judgment is immediately due. Part IV includes additional monetary provisions relating to collections. Part V requires Respondents to provide sufficient customer information to enable the Commission to administer consumer redress, if appropriate.

Part VI is a notice provision requiring Respondents to identify and notify certain consumers of the FTC's action within 30 days after the issuance of the order, or within 30 days of the consumer's identification, if identified later. Respondents are also required to submit reports regarding their notification program.

Parts VII through X are reporting and compliance provisions. Part VII requires Respondents to acknowledge receipt of the order, to provide a copy of the order to certain current and future principals, officers, directors, and employees, and to obtain an acknowledgement from each such person that they have received a copy of the order.

Part VIII requires Respondents to file a compliance report within one year after the order becomes final and to notify the Commission within 14 days of certain changes that would affect compliance with the order.

Part IX requires Respondents to maintain certain records, including records necessary to demonstrate compliance with the order. Part X requires Respondents to submit additional compliance reports when requested by the Commission and to permit the Commission or its representatives to interview Respondents' personnel. Finally, Part XI is a "sunset" provision, terminating the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the complaint or proposed order, or to modify in any way the proposed order's terms.

By direction of the Commission.

*Acting Secretary.*

#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

The goal of this study is to look systematically across the selected subset of ARP programs, to provide an integrated account of whether, how, and to what extent their implementation served to achieve their intended outcomes, particularly with respect to advancing equity. More specifically, the study aims to learn how lessons from examination of ARP programs and interventions with shared outcomes, common approaches, or overlapping recipient communities may inform equitable program design and delivery across the Federal Government. The study aims to address these overarching evaluation questions:

- To what extent did ARP investments and policy interventions advance equitable outcomes for those they were designed to serve?
- What strategies contributed to the successes, and where are different strategies needed?
- Where multiple ARP programs aim to reach similar outcomes, especially among a shared population:
  - To what extent is there coordination across programs in their administration, customer experience strategies, or performance or outcome measurement practices?
  - To what extent are there collective impacts that could be attributed to more than one program? What kinds of impacts, if any, are observed?
  - What kinds of secondary effects are observed that may not be captured in targeted outcome measures?

The list of 32 programs covered in the May 2022 White House report "Advancing Equity through the American Rescue Plan" provided the scope of programs included in the National Evaluation. A partnership
