[Docket No. CP22-92-000]

#### Venture Global Plaquemines LNG, LLC; Notice of Application To Amend and Establishing Intervention and Protest Deadline

Take notice that on March 11, 2022, Venture Global Plaquemines LNG, LLC (Plaquemines LNG), 1001 19th Street North, Suite 1500, Arlington, VA 22209, filed in the above referenced docket, an application pursuant to section 3 of the natural Gas Act (NGA) and Part 153, Subpart B, of the Commission's regulations for an amendment to the authorizations granted by the Commission on September 30, 2019 in Docket No. CP17-66-000. Those actions authorized Plaquemines LNG to site, construct, and operate a new liquefied natural gas (LNG) export terminal and associated facilities (Export Terminal) along the west bank of the Mississippi River in Plaquemines Parish, Louisiana.

In this amendment Plaquemines LNG proposes to increase the Export Terminal's peak achievable liquefaction capacity from 24.0 million metric tons per annum (MTPA) to 27.2 MTPA of

LNG under optimal operating conditions. Plaquemines LNG states that the requested increase in peak liquefaction capacity reflects refinements in the conditions and assumptions concerning the maximum potential output of the already authorized facilities and does not involve construction of any new facilities, new environmental permits (or amendments to existing permits) nor any modification of the authorized facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.
