

Chilean, and Brazilian swine, pork, and pork product imports. This would cause serious health consequences from U.S. swine and economic consequences for the U.S. pork industry.

Description of Respondents: Business or other for profit; Federal Government.

Number of Respondents: 11.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 768.

Title: Importation of Clementines, Mandarins, and Tangerines from Chile.

OMB Control Number: 0579-0242.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The regulations in "Subpart-Fruits and Vegetables" (7 CFR 319.56 through 319.56-58) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world, to prevent the introduction and dissemination of plant pests, including fruit flies that are new to or not widely distributed within the United States. The Animal and Plant Health Inspection Service (APHIS) fruits and vegetables regulations allow the importation, under certain conditions, of clementines, mandarins, and tangerines from Chile into the United States.

Need and Use of the Information: APHIS requires that some plants or plant products are accompanied by a phytosanitary inspection certificate that is completed by plant health officials in the originating or transiting country. APHIS will use the information on this certificate to determine the pest condition of the shipment at the time of inspection in the foreign country. This information is used as a guide to the intensity of the inspection that APHIS must conduct when the shipment arrives. Without the information, all shipments would need to be inspected very thoroughly, thereby requiring considerable more time, this would slow the clearance of international shipments.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 39.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 163.

Ruth Brown,

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

February 19, 2014.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Pathogen Reduction/Hazard Analysis and Critical Control Point (HACCP) Systems.

OMB Control Number: 0583-0103.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. FSIS has established requirements applicable to meat and poultry establishments designed to reduce the occurrence and numbers of pathogenic microorganisms on meat and poultry products, reduce the incidence of foodborne illness associated with the consumption of those products, and provide a new framework for modernization of the current system of meat and poultry inspection.

Need and Use of the Information: FSIS will collect information to ensure that (1) establishments have developed and maintained an standard operating plan for sanitation that is used by inspection personnel in performing monitoring regulations; (2) establishments have developed written procedures outlining specimen collection and handling for *E.coli* process control verification testing; (3) establishments developed written HACCP plans; (4) establishments will keep records for measurements during slaughter and processing, corrective action, verification check results, and related activities that contain the identify of the product, the product code or slaughter production lot, and the date the record was made; (5) establishments may have prerequisite programs that are designed to provide the basic environmental and operating conditions necessary for the production of safe, wholesome food; and (6) establishment maintain and are able to supply upon request the following information concerning the suppliers of source materials; the name, point of contact, and phone number for the establishment supplying the source materials for the lot of ground beef sampled; and the supplier lot numbers, production dates, and other information that would be useful to know about suppliers.

Description of Respondents: Business or other for-profit.

Number of Respondents: 7,298.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Other (daily).

Total Burden Hours: 6,263,327.

Title: Procedures for the Notification of New Technology.

OMB Control Number: 0583–0127.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. FSIS established flexible procedures to actively encourage the development and use of new technologies in meat and poultry establishments and egg products plants. These new procedures will facilitate notification to the Agency of any new technology that is intended for use in meat and poultry establishments and egg products plants so that the Agency can decide whether the new technology requires a pre-use review. A pre-use review often includes an in-plant trial.

Need and Use of the Information: FSIS will collect information to determine if a pre-use review is needed, FSIS will request that the firm submit a protocol for an in-plant trial of the new technology. The firm then must submit a protocol that is designed to collect relevant data to support the use of the new technology. To not collect this information would reduce the effectiveness of the meat, poultry, and egg products inspection program.

Description of Respondents: Business or other for-profit.

Number of Respondents: 65.

Frequency of Responses:

Recordkeeping; Reporting; on occasion.

Total Burden Hours: 3,616.

Agricultural Marketing Service

[Doc. No. AMS–LPS–14–0001]

Notice of Request for Extension and Revision of a Currently Approved Information Collection for Voluntary Grading.

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request approval, from the Office of Management and Budget, for an extension of and revision to the currently approved information collection in support of the Regulations for Voluntary Grading of Shell Eggs—7 CFR Part 56. With this submission we will merge the burden and forms of the 0581–0127 Regulations for Voluntary Grading of Poultry Products and Rabbit Products; 7 CFR Part 70, approved on December 26, 2013; and 0581–0128 Regulations Governing the Voluntary Grading of Shell Eggs, 7 CFR Part 56, approved on June 4, 2011. With this merge we will change the title to Regulations for Voluntary Grading of Shell Eggs, Poultry Products, and Rabbit Products—7 CFR Part 56 and 70.

DATES: Comments on this notice must be received by April 28, 2014 to be assured of consideration.

ADDRESSES: Interested persons are invited to submit comments concerning this information collection notice. Comments should be submitted online at www.regulations.gov or sent to Michelle Degenhart, Assistant to the Director, Quality Assessment Division, Livestock, Poultry and Seed Program, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Ave. SW., Room 3842–S, Washington, DC 20250–0256, or by facsimile to (202) 690–2746. All comments should reference the docket number (AMS–LPS–14–0001), the date, and the page number of this issue of the **Federal Register**. All comments received will be posted without change, including any personal information provided, online at <http://www.regulations.gov> and will be made available for public inspection at the above physical address during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Michelle Degenhart at the above physical address, or by email at Michelle.Degenhart@ams.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Regulations for Voluntary Grading of Shell Eggs, Poultry Products, and Rabbit Products—7 CFR Part 56 and 70.

OMB Number: 0581–0128.

Expiration Date of Approval: June 30, 2014.

Type of Request: Extension and revision of a currently approved information collection.

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average 0.1538 hours per response.

Respondents: State or local governments, businesses or other for profits, and small businesses or organizations.

Estimated Number of Respondents: 1,348.

Estimated Total Annual Responses: 47,198.50.

Estimated Number of Responses per Respondent: 35.01.

Estimated Total Annual Burden on Respondents: 7,259.29 hours.

Abstract: The Agricultural Marketing Act of 1946 (AMA) (7 U.S.C. 1621–1627) directs and authorizes the United States Department of Agriculture (USDA) to develop standards of quality, grades, grading programs, and services which facilitate trading of agricultural products, assure consumers of quality products that are graded and identified under USDA programs. To provide programs and services, section 203(h) of the AMA (7 U.S.C. 1622(h)) directs and authorizes the Secretary of Agriculture to inspect, certify, and identify the grade, class, quality, quantity, and condition of agricultural products under such rules and regulations as the Secretary may prescribe, including assessment and collection of fees for the cost of service. The regulations in 7 CFR Part 56 and 70 provides a voluntary program for grading shell eggs, poultry products, and rabbit products on the basis of U.S. standards and grades. AMS also provides other types of voluntary services under the regulations, e.g., contract and specification acceptance services and certification of quantity. All of the voluntary grading services are available on a resident basis or lot-fee basis. Respondents may request resident service on a continuous or temporary basis. The service is paid for by the user (user-fee). Because this is a voluntary program, respondents need to request or apply for the specific service they wish, and in doing so, they provide information. Since the AMA requires that the cost of service be assessed and collected, information is collected to establish the Agency's cost. The information collection requirements in this request are essential to carry out the intent of the AMA, to provide the respondents the type of service they request, and to administer the program. Examples of information collected includes, but not limited to: total received volume in pounds or cases, volume in pounds of graded and processed poultry, case volume of graded and sized shell eggs, applicant's name, billing and facility address, and requests for approval of commodity specifications or chemical compounds.
