SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Geological Survey (USGS) will design and conduct a survey that will be used to evaluate the performance of its Gap Analysis Program (GAP). The information collected will provide information for the Program's annual performance plan as required by the Government Performance and Results ACT (GPRA). Scientists and staff in the Policy Analysis and Science Assistance Branch of the USGS will conduct the survey on-line. The only option for all respondents will be to complete the survey on-line.

Information from this survey will provide the GAP Program managers with scientifically sound data that can be used to: (1) Prepare strategic planning and performance documents, (2) measure user satisfaction, and (3) understand user needs. Additionally, this survey can target performance issues that relate to education and outreach, technology and data quality. Due to the nature of this collection, all identified respondents will have: (1) an active e-mail address and (2) skills in GIS and computer operations.
