Overview of This Information Collection

(1) *Type of Information Collection:* Establishment survey and initial approval of collection.

(2) *Title of Form/Collection:* Geospatial Capabilities Survey.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form Number:* None. National Institute of Justice, Office of Justice Programs, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract: Primary:* Law enforcement agencies with 100 or more sworn officers. These law enforcement agencies include police departments, sheriff agencies, and state police agencies. This collection is the only effort that provides an ability to determine, in detail, the geospatial tools, techniques, and practices in use currently at large law enforcement agencies. The results of the survey will help NIJ determine how best it can meet the needs and enhance the effectiveness of geospatial capabilities among crime analysts in large police departments through future technology development grants. There is little data on the specific geospatial capabilities of law enforcement agencies and hence little data on which to base technology grant decisions to enhance crime analysis tools and techniques. This survey will update the information gathered in the Use of Computerized Crime Mapping Survey conducted by NIJ in 1997, the last survey on use of computerized crime analysis tools by NIJ and establish the basis for future technology development funding. This collection will also enable Federal, State, and local law enforcement agencies; legislators; researchers; and government agencies to understand the depth, range, and scope of geospatial capabilities currently in use at large law enforcement agencies and develop approaches to extend and enhance these capabilities towards improving policing strategies and public safety through crime solving and prevention.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The survey will invite all of the 907 law enforcement agencies with 100 or more sworn officers to participate in the survey. The law enforcement agencies will select the personnel most fitting to their organization to provide the responses. The survey is estimated to take one hour to complete.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 907 total burden hours associated with this collection.

If additional information is required contact: Jerri Murray, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., Room 3W-1407-B, Washington, DC 20530.

Dated: October 22, 2013.
