

standard instrument approach procedure (SIAP), to Scott Field Airport, Mangum, OK, has made this rule necessary. The intended effect of this action is to provide adequate controlled airspace for aircraft.

Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9J, dated August 1, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR § 71.1.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and therefore is issuing it as a direct final rule. A substantial number of previous opportunities provided to the public to comment on substantially identical actions have resulted in negligible adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document will be published in the **Federal Register**. This document may withdraw the direct final rule in whole or in part. After considering the adverse or negative comment, we may publish another direct final rule or publish a notice of proposed rulemaking with a new comment period.

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and

determining whether additional rulemaking action is needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 2002-ASW-1." The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule will not have federalism implications under Executive Order 13132.

Further, the FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments and only involves an established body of technical regulations that require frequent and routine amendments to keep them operationally current. Therefore, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. Since this rule involves routine matters that will only affect air traffic procedures and air navigation, it does not warrant preparation of a Regulatory Flexibility Analysis because the anticipated impact is so minimal.

[Airspace Docket No. 2002-ASW-2]

Revision of Class E Airspace; Springhill, LA

AGENCY: Federal Aviation Administration, (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This amendment revised the Class E airspace at Springhill, LA. The development of a Nondirectional Radio Beam (NDB) Standard Instrument Approach Procedure (SIAP), at Springhill Airport, Springhill, LA, has made this rule necessary. This action is intended to provide adequate controlled airspace extending upward from 700 feet or more above the surface for Instrument Flight Rules (IFR) operations to Springhill Airport, Springhill, LA.

DATES: Effective 0901 UTC, October 3, 2002. Comments must be received on or before August 30, 2002.

ADDRESSES: Send comments on the rule in triplicate to Manager, Airspace Branch, Air Traffic Division, Federal Aviation Administration, Southwest Region, Docket No. 2002-ASW-2, Fort Worth, TX 76193-0520. The official docket may be examined in the Office of Regional Counsel, Southwest Region, Federal Aviation Administration, 2601 Meacham Boulevard, Room 663, Fort Worth, TX, between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the Airspace Branch, Air Traffic Division, Federal Aviation Administration, Southwest Region, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT: Joseph R. Yadouga, Airspace Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0520, telephone 817-5597.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR part 71 revises the Class E airspace at Springhill, LA. The development of a NDB SIAP, at Springhill Airport, Springhill, LA has made this rule necessary. This action is intended to provide adequate controlled airspace extending upward from 700 feet or more above the surface for IFR operations to Springhill Airport, Springhill, LA.

Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9J, dated August 1, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the order.

After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final

rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document will be published in the **Federal Register**. This document may withdraw the direct final rule in whole or in part. After considering the adverse or negative comment, we may publish another direct final rule or publish a notice of proposed rulemaking with a new comment period.

Elimination of the Tariff-Rate Quotas on Imported Lamb Meat

AGENCY: Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: The tariff-rate quota imposed on imported lamb meat products has been eliminated by Presidential Proclamation 7502 of November 14, 2001. Accordingly, this document amends the Customs Regulations by removing the regulation requiring that lamb meat subject to the tariff-rate quota be covered by an export certificate in order to obtain the in-quota rate of duty.

EFFECTIVE DATE: July 16, 2002.

FOR FURTHER INFORMATION CONTACT: Thomas Fitzpatrick, Office of Field Operations, 202-927-5385.

SUPPLEMENTARY INFORMATION:

Background

Presidential Proclamation 7208 of July 7, 1999, as modified by Presidential Proclamation 7214 of July 30, 1999, imposed a temporary tariff-rate quota (TRQ) effective July 22, 1999, on lamb meat imports provided for in subheadings 0204.10.00, 0204.22.20, 0204.23.20, 0204.30.00, 0204.42.20, and 0204.43.20, Harmonized Tariff Schedule of the United States (HTSUS), in order to facilitate the domestic industry's adjustment to import competition. Under Presidential Proclamation 7214, the United States Trade Representative (USTR) was authorized to administer the TRQ on the lamb meat.

Pursuant to Presidential Proclamations 7208 and 7214 and the implementing regulations of the USTR (15 CFR part 2014), the United States Customs Service issued § 132.16 of the Customs Regulations (19 CFR 132.16)

which required that lamb meat subject to the TRQ be covered under certain circumstances by an export certificate in order to obtain the in-quota rate of duty. Also, an appropriate reference to the export-certificate requirement of § 132.16 was included in the appendix to part 163, Customs Regulations (19 CFR part 163, Appendix), which lists those records that are required for the entry of imported merchandise. (See Customs interim and final rules in this matter published in the **Federal Register** on December 2, 1999, and December 13, 2000, respectively (64 FR 67482 and 65 FR 77816).)

The TRQ imposed on the lamb meat has now been eliminated by Presidential Proclamation 7502 of November 14, 2001. With the elimination of this TRQ, there is therefore no longer any need for the regulation requiring that an export certificate cover the lamb meat in order to entitle the lamb meat to the in-quota rate of duty under the TRQ. Accordingly, § 132.16 is being removed from the Customs Regulations as well as the reference to § 132.16 in the Appendix to Part 163.

Inapplicability of Public Notice and Delayed Effective Date Requirements

Because these amendments merely reflect Presidential Proclamation 7502 of November 14, 2001, pursuant to 5 U.S.C. 553(b)(B), notice and public procedure are unnecessary, and for the same reasons, pursuant to 5 U.S.C. 553(d)(3), a delayed effective date is not required.

Regulatory Flexibility Act and Executive Order 12866

Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply. These amendments do not meet the criteria for a "significant regulatory action" as specified in Executive Order 12866.

Amendments to the Regulations

Parts 132 and 163, Customs Regulations (19 CFR parts 132 and 163), are amended as set forth below.

PART 132—QUOTAS

1. The general authority citation for part 132 continues to read as follows and the relevant specific authority citation for § 132.16 is revised to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Note 23, Harmonized Tariff Schedule of the United States (HTSUS)), 1623, 1624. §§ 132.15, 132.17, and 132.18 also issued under 19 U.S.C. 1202 (additional U.S. Note 3 to Chapter 2, HTSUS; additional U.S. Note 8 to Chapter 17, HTSUS; and subchapter II of Chapter 99, HTSUS, respectively), 1484, 1508.

2. Part 132 is amended by removing and reserving § 132.16.

PART 163—RECORDKEEPING

1. The authority citation for Part 163 continues to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 66, 1484, 1508, 1509, 1510, 1624.

2. In the Appendix to part 163, under heading IV, the list of documents/records or information required for entry of special categories of merchandise is amended by removing the listing "§§ 132.15 through 132.17 Export certificates, respectively, for beef, lamb meat, or sugar-containing products subject to tariff-rate quota," and by adding the following listing in its place:
