Target sectors holding high potential for U.S. exporters include aircraft parts (particularly for the aftermarket), business aviation, general aviation and helicopters, airspace and air traffic flow management, ground support equipment, baggage handling systems, meteorological information management, surveillance and satellite navigation, and airport/aviation security.

The following criteria will be evaluated in selecting participants:

- Suitability of the company's (or, in the case of a trade association or trade organization, represented companies') products or services for the Brazilian market;
- Company's (or, in the case of a trade association or trade organization, represented companies') potential for business in Brazil, including likelihood of exports resulting from the mission;
- Consistency of company's (or, in the case of a trade association or trade organization, represented companies') products or services with the scope and desired outcome of the mission's goals.

Additional factors, such as diversity of participant company size, type, location, and demographics, may also be considered during the review process. Referrals from political organizations and any documents containing references to partisan political activities (including political contributions) will be removed from an applicant's submission and not considered during the selection process.

Timeline for Recruitment and Applications

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the Commerce Department trade mission calendar (<http://export.gov/trademissions>) and other Internet Web sites, press releases to general and trade media, direct mail, notices by industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows.
