History and Description of the Cultural Item(s)

In 1898, the New York State Museum acquired three cultural items from members of the Seneca-Cayuga Tribe of Oklahoma. The three sacred objects are medicine masks donated by Harriet Maxwell Converse of New York City, NY (E-37012, E-37030, E-37621). Museum records indicate the masks are culturally affiliated with the Seneca-Cayuga Tribe of Oklahoma.

Consultation with members of the Haudenosaunee Standing Committee on Burial Rules and Regulations has identified the medicine masks as being needed for the practice of traditional Native American religions by present-day adherents. Museum documentation supported by consultation with the Seneca-Cayuga Tribe of Oklahoma indicates that these medicine faces are culturally affiliated with the Seneca-Cayuga Tribe of Oklahoma.

Determinations Made by the New York State Museum

Officials of the New York State Museum have determined that:

- Pursuant to 25 U.S.C. 3001(3)(C), the three cultural items described above are specific ceremonial objects needed by traditional Native American religious leaders for the practice of traditional Native American religions by their present-day adherents.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the sacred objects and the Seneca-Cayuga Tribe of Oklahoma.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary's responsibility, according to various laws, is to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected in accordance with applicable laws. The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands. Public laws pertaining to mineral leases on Federal Indian lands are available on our Web site at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The lessee, or the designee, must report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals.

The information that ONRR collects includes data necessary to ensure that the lessee accurately values and appropriately pays all royalties and other mineral revenues due.

Reporters submit information into the ONRR financial accounting system that includes royalty, rental, bonus, and other payment information; sales volumes and values; and other royalty values. ONRR uses the accounting system to compare production volumes with royalty volumes to verify that companies reported and paid proper royalties for the minerals produced. Additionally, we share the data electronically with the Bureau of Safety and Environmental Enforcement, Bureau of Land Management, Bureau of Indian Affairs, and Tribal and State governments so they can perform their lease management responsibilities.

We use the information collected in this ICR to ensure that companies properly pay royalties based on accurate production accounting on oil, gas, and geothermal resources that they produce from Federal and Indian leases. The requirement to report accurately and timely is mandatory. Please refer to the chart for all reporting requirements and associated burden hours.

Royalty Reporting

Payors (Reporters) must report, according to various regulations, and remit royalties on oil, gas, and geothermal resources that they produced from leases on Federal and Indian lands. ONRR uses the following form for royalty reporting:

Form ONRR-2014, Report of Sales and Royalty Remittance. Reporters submit this form monthly to report royalties on oil, gas, and geothermal leases, certain rents, and other lease-related transactions such as transportation and processing allowances, lease adjustments, and quality and location differentials.

Production Reporting

Operators (Reporters) must submit, according to various regulations, production reports if they operate a Federal or Indian onshore or offshore oil and gas lease or federally approved unit or communitization agreement. We use the ONRR financial accounting system to track minerals produced from Federal and Indian lands, from the point of production to the point of disposition or royalty determination and/or point of sale. The reporters use the following forms for production accounting and reporting:

Form ONRR-4054, Oil and Gas Operations Report (OGOR). Reporters submit this form monthly for all
