

("OPEI") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: Outdoor Power Equipment Institute, Alexandria, VA. The nature and scope of OPEI's standards development activities are: The development of voluntary standards for wheeled and handheld outdoor power equipment including, but not limited to: Walk-behind mowers; ride-on machines with mowers; snow throwers; commercial turf care equipment; powered shredder/grinders and shredded/baggers; walk-behind powered rotary tillers; handheld and backpack, gasoline-engine-powered blowers; grass trimmers; and brush cutters.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum Project No. 03-03

Notice is hereby given that, on November 2, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Petroleum Environmental Research Forum Project No. 03-03 ("PERF; Project No. 03-03") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties to the venture are: ChevronTexaco Energy Technology Company, Richmond, CA; ExxonMobil

Production Company, Houston, TX; Total E&P Services, Courbevoie, FRANCE; Halliburton Energy Services Group, Houston, TX; and Statoil ASA, Stavanger, NORWAY. The general area of PERF Project No. 03-03's planned activity is to generate a set of model technical standards that may be incorporated into regulations (framework) based on a risk approach to protect health and the environment at E&P operations. The activities to be carried out include the development of a framework from which risk based technical standards can be derived. Participation in this joint venture will remain open to qualified persons and organizations, and the participants intend to file additional written notifications disclosing all changes in membership.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum Project No. 2002-13

Notice is hereby given that, on October 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Petroleum Environmental Research Forum Project No. 2002-13 ("PERF Project No. 2002-13") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties to the venture are: ExxonMobil Research and Engineering Company, Fairfax, VA; ConocoPhillips Company, Houston, TX; and Unocal, Sugarland, TX. The nature and objectives of the venture are to create a forum for sharing information regarding the industry's water management practices. This may include water reuse solutions in practice, rejected reuse solutions, case studies in the area of water reuse/minimization/optimization, produced

water reclamation, wastewater recovery, and tools used to develop these solutions. The program will be carried out through compiling, presenting and exchanging of individual research projects, including identification of methods to improve water management for industry.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—The Software Defined Radio Form

Notice is hereby given that, on September 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), The Software Defined Radio Forum ("SDR Forum") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: The Software Defined Radio Forum, Denver, CO. The nature and scope of SDR Forum's standards development activities are: (a) To promote the development and application of a compatible modular technology base for software-defined information transfer systems and devices; (b) to comprise an international group of equipment vendors, subsystem vendors, software developers, technology developers, communication service providers, research and engineering organizations, government users, regulators and other interested parties who share the common business interest of supporting the advancement of a compatible modular technology base for multimode multiband information transfer systems and devices; (c) to promote the development and application of such technology worldwide; (d) to promote national and international compatibility

and interoperability for such technology; (e) to develop and/or promulgate uniform standards for such technology; and (f) to conduct cooperative research, perform tests and prepare and disseminate informational materials relating to such technology.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Southwest Research Institute: The Consortium for NASGRO Development and Support

Notice is hereby given that, on October 18, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Southwest Research Institute: The Consortium for NASGRO Development and Support has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in the membership and project status of the venture. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the period of performance has been extended to May 31, 2007. Additionally, Honeywell International, Inc., Phoenix, AZ, has been added as a party to this venture; and Agusta s.p.a., Costina Costa de Samarate, Italy; Korea Aerospace Industries, Ltd., Kyungnam, Korea; and Mitsubishi Heavy Industry, Ltd., Nagoya, Japan are no longer active participants.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Southwest Research Institute: The Consortium for NASGRO Development and Support intends to file additional written notification disclosing all changes in membership.

On October 3, 2001, Southwest Research Institute: the Consortium for NASGRO Development and Support filed its original notification pursuant to section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section

6(b) of the Act on January 22, 2002 (67 FR 2910).

The last notification was filed with the Department on August 7, 2003. A notice was published in the **Federal Register** pursuant to section 6(b) of the Act on September 8, 2003 (68 FR 52959).

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Steel Joist Institute

Notice is hereby given that, on September 17, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Steel Joist Institute ("SJI") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: Steel Joist Institute, Myrtle Beach, SC. The nature and scope of SJI's standards development activities are: Continually develop standard specifications for the steel joist industry through the American National Standards Institute through consensus balloting.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Steel Tank Institute

Notice is hereby given that, on September 16, 2004, pursuant to section

6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Steel Tank Institute ("STI") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: Steel Tank Institute, Lake Zurich, IL. The nature and scope of STI's standards development activities are: To develop, promulgate and publish voluntary consensus standards, recommended practices and installation guidelines for the manufacture, installation, testing and inspection of underground and aboveground shop-fabricated steel storage tanks. STI standards ensure that underground and aboveground shop-fabricated steel storage tanks meet standards for safety and reliability so that users and other members of the public are assured that such tanks are properly manufactured, installed, tested and inspected. STI's voluntary consensus standards are developed by STI members and other interested parties who wish to participate in the process.

Additional information concerning STI can be obtained from Wayne Geyer, Executive Director, STI, at (847) 438-8265 (ext. 234).
