

# Rules and Regulations

Federal Register

Vol. 79, No. 232

Wednesday, December 3, 2014

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

#### 9 CFR Parts 145 and 146

[Docket No. APHIS–2011–0101]

RIN 0579–AD83

#### National Poultry Improvement Plan and Auxiliary Provisions; Technical Amendment

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** In a final rule that was published in the **Federal Register** on July 9, 2014, and effective on August 8, 2014, we amended the provisions of the National Poultry Improvement Plan by, among other things, amending the standards for the U.S. H5/H7 Avian Influenza Monitored classification. In that amendment, we incorrectly indicated that table-egg layer flocks may qualify for U.S. H5/H7 Avian Influenza Monitored status if they meet one of three testing and surveillance requirements, when we should have indicated such flocks must meet all applicable listed testing and surveillance requirements to qualify. This document corrects that error. We are also making several other minor edits for clarity.

**DATES:** Effective December 3, 2014.

**FOR FURTHER INFORMATION CONTACT:** Dr. Denise Brinson, DVM, Director, National Poultry Improvement Plan, VS, APHIS, USDA, 1506 Klondike Road, Suite 101, Conyers, GA 30094–5104; (770) 922–3496.

**SUPPLEMENTARY INFORMATION:** The National Poultry Improvement Plan (NPIP, also referred to below as “the Plan”) is a cooperative Federal-State-industry mechanism for controlling

certain poultry diseases. The Plan consists of a variety of programs intended to prevent and control poultry diseases. Participation in all Plan programs is voluntary, but breeding flocks, hatcheries, and dealers must first qualify as “U.S. Pullorum-Typhoid Clean” as a condition for participating in the other Plan programs.

The regulations in 9 CFR parts 145, 146, and 147 (referred to below as the regulations) contain the provisions of the Plan. The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) amends these provisions from time to time to incorporate new scientific information and technologies within the Plan.

In a final rule<sup>1</sup> published in the **Federal Register** on July 9, 2014 (79 FR 38752–38768, Docket No. APHIS–2011–0101), with an effective date of August 8, 2014, we amended the regulations by, among other things, amending the standards for the U.S. H5/H7 Avian Influenza Monitored classification. Section 146.23(a) provides the U.S. H5/H7 Avian Influenza Monitored classification for table-egg layer pullet flocks and table-egg layer flocks. Prior to the final rule, the introductory text for paragraph (a) addressed the table-egg layer industry generally, including both table-egg layer pullet flocks and table-egg layer flocks. Separate testing requirements were set out for each type of flock in paragraphs (a)(1) and (a)(2), respectively. However, this caused some confusion. Therefore, in the final rule, we reformatted paragraph (a) so that it includes introductory text in paragraphs (a)(1) and (a)(2) that is specific to each type of flock. The testing requirements, which remain the same, were set out for each type of flock using the phrase “A flock will qualify for this classification when the Official State Agency determines that it has met one of the following requirements.” While the use of “one of” is appropriate for paragraph (a)(1) as there are only two testing and surveillance options that satisfy the U.S. H5/H7 Avian Influenza Monitored classification, in order for flocks in paragraph (a)(2) to attain U.S. H5/H7 Avian Influenza Monitored classification they must meet the requirements of paragraph (a)(2)(i) and

either paragraph (a)(2)(ii) or (a)(2)(iii). Therefore, using “one of” in this case inadvertently removes necessary testing requirements.

To clarify the requirements that must be followed for table-egg layer flocks to qualify as U.S. H5/H7 Avian Influenza Monitored classified, we are amending the introductory text in paragraph (a)(2) to make it clear that table-egg layer flocks must meet the requirements of paragraph (a)(2)(i) and the requirements of either paragraph (a)(2)(ii) or (a)(2)(iii).

Section 145.23(h) sets out requirements for the U.S. Avian Influenza Clean classification for multiplier breeding flocks. The regulations currently state that a flock and the hatching eggs and chicks produced from it will obtain this classification if, along with other requirements, during each 90-day period, all multiplier spent fowl within the flock, up to a maximum of 30, are tested and found negative for avian influenza within 21 days prior to movement to slaughter. In the final rule, we intended to change this requirement to state that such a classification may be obtained when, in addition to other requirements, a sample of at least 11 birds is tested and found negative to avian influenza within 21 days prior to slaughter. We are correcting this unintended omission in this technical amendment.

We are also making several other changes to improve the clarity of the regulations. Section 145.33(l) sets out requirements for the U.S. Avian Influenza Clean classification for multiplier meat-type chicken breeding flocks. However, the introductory text in paragraph (l) inadvertently refers to members of such flocks as “primary breeding chickens.” Therefore, we are amending the introductory text in paragraph (l) to replace the word “primary” with the word “multiplier.” In paragraph (l)(2) we are also adding the word “serologically” after the word “tested” and the words “for antibodies for avian influenza” after the word “negative.” Finally, we are adding the words “for antibodies for avian influenza” after the word “negative” in § 145.83(g)(2). We are making these changes to clarify the nature of the required testing.

**List of Subjects in 9 CFR Parts 145 and 146**

Animal diseases, Poultry and poultry products, Reporting and recordkeeping requirements.

Accordingly, we are amending 9 CFR parts 145 and 146 as follows:

**PART 145—NATIONAL POULTRY IMPROVEMENT PLAN FOR BREEDING POULTRY**

■ 1. The authority citation for part 145 continues to read as follows:

**Authority:** 7 U.S.C. 8301–8317; 7 CFR 2.22, 2.80, and 371.4.

■ 2. In § 145.23, paragraph (h)(2) is revised to read as follows:

**§ 145.23 Terminology and classification; flocks and products.**

\* \* \* \* \*

(h) \* \* \*

(2) A sample of at least 11 birds must be tested and found negative to avian influenza within 21 days prior to slaughter.

\* \* \* \* \*

■ 3. Section 145.33 is amended in paragraph (l) introductory text, by revising the second sentence after the heading and by revising paragraph (l)(2) to read as follows:

**§ 145.33 Terminology and classification; flocks and products.**

\* \* \* \* \*

(l) \* \* \* It is intended to determine the presence of avian influenza in multiplier breeding chickens through routine surveillance of each participating breeding flock. \* \* \*

\* \* \* \* \*

(2) During each 90-day period, all multiplier spent fowl, up to a maximum of 30, must be tested serologically and found negative for antibodies for avian influenza within 21 days prior to movement to slaughter.

\* \* \* \* \*

**§ 145.83 [Amended]**

■ 4. In § 145.83, paragraph (g)(2) is amended by adding the words “for antibodies for avian influenza” after the word “negative”.

**PART 146—NATIONAL POULTRY IMPROVEMENT PLAN FOR COMMERCIAL POULTRY**

■ 5. The authority citation for part 146 continues to read as follows:

**Authority:** 7 U.S.C. 8301–8317; 7 CFR 2.22, 2.80, and 371.4.

**§ 146.23 [Amended]**

■ 6. Section 146.23 is amended as follows:

- a. In paragraph (a)(2) introductory text, by removing the words “one of”.
- b. In paragraph (a)(2)(i), by adding the words “and either” after the word “disposal;”.

Done in Washington, DC, this 26th day of November 2014.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

**DEPARTMENT OF ENERGY****10 CFR Parts 429 and 431**

[Docket No. EERE–2013–BT–TP–0002]

RIN 1904–AC93

**Energy Conservation Program: Test Procedures for Commercial Clothes Washers**

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Final rule.

**SUMMARY:** On February 11, 2014, the U.S. Department of Energy (DOE) issued a notice of proposed rulemaking (NPR) to amend the test procedures for commercial clothes washers (CCWs). That proposed rulemaking serves as the basis for today’s action. DOE is issuing a final rule making a technical correction to the certification reporting requirements for CCWs established under the Energy Policy and Conservation Act (EPCA), adopting a new test procedure to be used to determine compliance with any revised energy conservation standards for CCWs, and clarifying the dates for which the current and new test procedures must be used to determine compliance with existing energy conservation standards and any future revised energy conservation standards for CCWs.

**DATES:** The effective date of this rule is January 2, 2015.

**ADDRESSES:** The docket, which includes Federal Register notices, public meeting attendee lists and transcripts, comments, and other supporting documents/materials, is available for review at [regulations.gov](http://www.regulations.gov). All documents in the docket are listed in the [regulations.gov](http://www.regulations.gov) index. However, some documents listed in the index, such as those containing information that is exempt from public disclosure, may not be publicly available.

The docket for this rulemaking can be found at: <http://www.regulations.gov/#!docketDetail;D=EERE-2013-BT-TP-0002>. The [regulations.gov](http://www.regulations.gov) Web page will contain simple instructions on how to access all documents, including public comments, in the docket.

For further information on how to review the docket, contact Ms. Brenda Edwards at (202) 586–2945 or by email: [Brenda.Edwards@ee.doe.gov](mailto:Brenda.Edwards@ee.doe.gov).

**I. Authority and Background**

Title III of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6291, *et seq.*; “EPCA”), Pub. L. 94–163, sets forth a variety of provisions designed to improve energy efficiency.<sup>1</sup>

<sup>1</sup> All references to EPCA in this document refer to the statute as amended through the American Energy Manufacturing Technical Corrections Act (AEMTCA), Pub. L. 112–210 (Dec. 18, 2012).
