Overview of This Information Collection

(1) *Type of Information Collection:* Reinstatement, with change, to a previously approved collection (previous approval recalled to redesign the effort as a survey rather than a census).

(2) *Title of the Form/Collection:* Survey of State and Local Law Enforcement Agencies Serving Tribal Lands/State and Local Justice Agencies Serving Tribal Lands.

(3) *Agency form number, if any, and the applicable component of the Department sponsoring the collection:* Agency form number: No agency form number at this time. Sponsoring component: Department of Justice, Bureau of Justice Statistics.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will be general purpose state and local law enforcement agencies (LEAs) that are responsible for policing tribal lands in the sixteen Public Law 280 (PL-280) states (Alaska, Arizona, California, Florida, Idaho, Iowa, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wisconsin). General purpose law enforcement agencies include state police departments, sheriff's offices, and local law enforcement agencies. The survey will also include village public safety coordinating officer (VPSO) non-profit coordinating agencies. *Abstract:* Among other responsibilities, the Bureau of Justice Statistics (BJS) is charged with collecting data regarding crimes occurring on tribal lands. The SLJASTL is the first effort by BJS to include state and local justice agencies responsible for policing and prosecuting crimes that occur on tribal lands in PL-280 states. Specifically, the SSLLEASTL will collect information that will help fill the gaps we have in our understanding of the nature of crime on tribal lands. There are two survey instruments: one for Alaska and one for the remaining fifteen PL-280 states. The data collection instruments are designed to capture administrative, operational and caseload data from respondents. Information requested includes the staffing and budgets of the state and local law enforcement agencies, the types of agreements state and local law enforcement agencies have with tribal governments, types of patrol services, traffic services, and detention services provided to tribal lands, information sharing between state and local law enforcement and tribal governments, training provided by state and local law enforcement to tribal law enforcement

(including cross-deputization agreements), training received by state and local law enforcement agencies on tribal jurisdiction, tribal law and tribal culture, and the number and types of incidents policed by state and local law enforcement agencies. This survey is the first of its kind to describe the role that state and local law enforcement play in policing crime on tribal lands in PL-280 states.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* The survey will be sent to 1,741 respondents. BJS expects an 80% response rate, or 1,393 total respondents. It is estimated that each respondent will take 1 hour to complete the form. An additional 30 minutes burden is estimated for nonresponse follow-up, as well as outreach to respondents that provided problematic data. The total burden per respondent is 90 minutes.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 2,090 total burden hours associated with this collection.

The employer would use Form LS-202 to make the initial

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review.
