

As found above, upon reviewing the patient files of the undercover officers as well as D.V., the Government's Expert found that Applicant issued controlled substances for other than a legitimate medical purpose and outside the usual course of professional practice. As support for his conclusion, the Expert observed that Applicant failed to perform detailed histories and adequate physical examinations, failed to develop any treatment plan other than to prescribe controlled substances, prescribed large and excessive doses of controlled substances, failed to properly monitor patients, and failed to keep legible and complete medical records. I agree with the Expert's analysis and conclude that Applicant knowingly diverted controlled substances including oxycodone (schedule II) and alprazolam (schedule IV) to the undercover officers and D.V. and thus violated federal law. 21 U.S.C. 841(a)(1); 21 CFR 1306.04(a). I further find that Applicant's misconduct was egregious. This finding provides reason alone to deny Applicant's application.

However, the record also supports the conclusion that Applicant exceeded the authority of his registration by prescribing controlled substances in schedules which were outside the scope of his registration. Pursuant to 21 U.S.C. 822(b), "[p]ersons registered by the Attorney General . . . to . . . dispense controlled substances . . . are authorized to possess . . . or dispense such substances . . . to the extent authorized by their registration." (emphasis added).

As found above, on October 5, 2009, Applicant applied for a new registration as a practitioner. Notwithstanding that the application form clearly instructed him to check all drug schedules for which he sought authority, Applicant checked the box for only schedule II narcotics. Accordingly, the Agency granted him a registration which was limited to schedule II narcotics. Applicant did not seek authority to dispense controlled substances in the additional schedules until June 6, 2011.

Thus, between October 6, 2009 (the date the application was granted) and June 6, 2011, Applicant could not lawfully prescribe any controlled substances outside of those narcotics in schedule II. The record, however, contains fifteen prescriptions for Xanax (alprazolam) and two prescriptions for Valium (diazepam), both of which are schedule IV controlled substances, as well as five prescriptions for Adderall (amphetamine), a schedule II non-narcotic, which Applicant issued without authority to do so. Even though Applicant eventually obtained a

registration for the remaining drug schedules, Applicant was responsible for ensuring that he had obtained the necessary authority for each schedule of controlled substances he intended to dispense. I thus conclude that Applicant violated federal law by dispensing controlled substances for which he lacked authorization. 21 U.S.C. 822(b) & 841(a)(1).

Accordingly, I find that the Government's evidence with respect to factor two and four establishes a *prima facie* case that granting Applicant's application "would be inconsistent with the public interest." *Id.* § 823(f). Because Applicant failed to respond to the Show Cause Order, whether by requesting a hearing or submitting a written statement, and thus has failed to offer any evidence to the contrary, I will order that his application be denied.

Order

Pursuant to the authority vested in me by 21 U.S.C. 823(f), as well as 28 CFR 0.100(b) and 0.104, I order that the application of Richard D. Vitalis, D.O., for a DEA Certificate of Registration as a practitioner, be, and it hereby is, denied. This Order is effective immediately.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Certificate of Medical Necessity, Form CM-893, information collection that a coal miner's physician completes and the OWCP uses to determine whether the miner meets impairment standards to qualify for durable medical equipment, home nursing, and/or pulmonary rehabilitation. This information collection has been classified as a revision, because of minor changes to the form designed to help a medical provider better understand the information needed to be provided. An accommodation statement has also been added to the form to inform a respondent who has a mental or physical limitation to contact the OWCP if further assistance is needed in completing the claims process. The Black Lung Benefits Act authorizes this information collection. See 30 U.S.C. 901.

In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240-0024. The current approval is scheduled to expire on December 31, 2014; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 7, 2014 (79 FR 46280).
