

The Census Bureau will send ESA and OMB an annual report at the end of each year summarizing the number of hours used, as well as the nature and results of the activities completed under this clearance.

The information collected in this program of developing and testing questionnaires will be used by staff from the Census Bureau and sponsoring agencies to evaluate and improve the quality of the data in the surveys and censuses that are ultimately conducted. Because the questionnaires being tested under this clearance are still in the process of development, the data that result from these collections are not considered official statistics of the Census Bureau or other Federal agencies. Data will be included in research reports prepared for sponsors inside and outside of the Census Bureau. The results may also be prepared for presentations related to survey methodology at professional meetings or publications in professional journals.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the

questionnaire being tested. This may be Title 13 U.S.C., Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau-sponsored surveys, and Title 13 and 15 for surveys sponsored by other Federal agencies. We do not now know what other titles will be referenced, since we do not know what survey questionnaires will be pretested during the course of the clearance.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or email (bharrisk@omb.eop.gov).

Dated: January 6, 2014.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Economic Value of Puerto Rico's Coral Reef Ecosystems for Recreation-Tourism

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing

effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a regular submission (new information collection).

NOAA and the U.S. Environmental Protection Agency (EPA) have entered a partnership to estimate the market and non-market economic values of Puerto Rico's coral reef ecosystems. Estimates will be made for all ecosystem services for the Guanica Bay Watershed and for recreation-tourism for all of Puerto Rico's coral reef ecosystems.

We will conduct surveys of visitors to Puerto Rico and residents of Puerto Rico who use the coral reef ecosystems to estimate the amount and type of use, their spending while undertaking coral reef use activities, the economic value of reef attributes (e.g. water clarity/visibility, coral abundance and diversity, fish and invertebrate abundance and diversity, and opportunity to see large wildlife) and how economic value changes with changes in reef attributes.

II. Method of Collection

Visitors to the island will be recruited into an Internet Panel via stratified random sampling at the various access modes of transportation to the island (e.g. airports, cruise ship docks and ferries). The panel recruitment surveys will use a short-form (5 to 10 minutes) to gather information of place of permanent residence, length of stay in Puerto Rico, activities participated in while on their stay, and demographic information. A tally sheet will be used to screen survey participants for coral reef use. This will then allow for connection to air enplanement data,

cruise ship passenger data, and ferry passenger data to estimate the total number of reef users. Those who agree to the Internet Panel will then be asked more detailed questions on intensity of coral reef use (person-days of reef activity by type of activity), spending while doing reef activities, and economic value of reef attributes. For those who do not want to join the Internet Panel, they will be offered mail back surveys to gather the information that would be gathered in the Internet Panels.

Residents of the island will be surveyed face-to-face in the home. Information on activity participation and use of the coral reefs, demographics, and economic value of coral reefs and how those values change with changes in reef attributes will be gathered in the face-to-face in-home surveys. Additional mail backs will be used for importance-satisfaction ratings and spending while recreating on the coral reefs.
