

Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is September 12, 2022. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP22-497-000 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below.⁶ Your motion to intervene must reference the Project docket number CP22-497-000.

Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

Motions to intervene must be served on the applicant either by mail or email at: Thomas C. Ryan, Partner, K&L Gates, 210 Sixth Avenue, Pittsburgh, Pennsylvania 15222; or by email to thomas.ryan@klgates.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed⁷ motions to intervene are automatically granted by operation of Rule 214(c)(1).⁸ Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.⁹ A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at <http://www.ferc.gov> using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The collection of information is necessary in order to receive applications for credit assistance pursuant to section 5024 of the Water Infrastructure Finance and Innovation Act (WIFIA) of 2014, 33 U.S.C. 3903. The purpose of the WIFIA program is to provide Federal credit assistance in the form of direct loans and loan guarantees to eligible clean water and drinking water projects.

WIFIA requires that an eligible entity submit to the Administrator an application at such time, in such manner, and containing such information, as the Secretary or the Administrator *may require* to receive assistance under WIFIA. To satisfy these requirements, EPA must collect an application from prospective borrowers

seeking funding. The Letters of Interest and Applications collected from prospective borrowers through this solicitation will be used by the EPA, WIFIA program staff, and reviewers to evaluate applications for credit assistance under the WIFIA eligibility requirements and selection criteria.

Form Numbers: EPA 6100–030, 6100–031, and 6100–032.

Respondents/affected entities: The respondents affected by this collection activity include: corporations, partnerships, joint ventures, trusts, federal, state, or local government entities, tribal governments or a consortium of tribal governments, and state infrastructure finance authorities. The Letters of Interest and Applications collected from prospective borrowers through this solicitation will be used by EPA to evaluate requests for credit assistance under the WIFIA eligibility requirements and selection criteria.

Respondent's obligation to respond: The collection is required to obtain credit assistance pursuant to section 5024 of WIFIA, 33 U.S.C. 3903.

Estimated number of respondents: 105 per year (total).

Frequency of response: one per funding round.

Total estimated burden: 10,450 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$10,000,000.00 (per year), includes no annualized capital or operation and maintenance costs.

Change in Estimates: There is a decrease of 375 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a reduction in the expected number of collections from 55 to 45.

Andrew D. Sawyers,

Director, Office of Wastewater Management.
