BILLING CODE 3510-BP-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Implantation and Recovery of Archival Tags.

OMB Control Number: 0648-0338.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 35.

Average Hours per Response: Tag recovery information, 30 minutes; exempted fishing (scientific research) permit application and annual report, 40 minutes; interim reports, 1 hour.

Burden Hours: 47.

Needs and Uses: This request is for an extension of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) allows scientists to implant archival tags in, or affix archival tags to, selected Atlantic Highly Migratory Species (tunas, sharks, swordfish, and billfish). Archival tags collect location, temperature, and water depth data that is useful for scientists researching the movements and behavior of individual fish. It is often necessary to retrieve the tags in order to obtain the collected data; therefore, persons catching tagged fish are exempted from other normally applicable regulations (*i.e.*, immediate release of the fish, minimum size, prohibited species, retention limits). These participants must notify NOAA, return the archival tag or make it available to NOAA personnel, and provide information about the location and method of capture if they harvest a

fish that has an archival tag. The information obtained is used by NOAA in the formation of international and domestic fisheries policy and regulations.

Scientists outside of NOAA who affix or implant archival tags must obtain prior authorization from NOAA and submit subsequent reports about the tagging of fish. NOAA needs that information to evaluate the effectiveness of archival tag programs, to assess the likely impact of regulatory allowances for tag recovery, and to ensure that the research does not produce excessive mortality.

Affected Public: Individuals or households; not-for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

OIRA_Submission@omb.eop.gov.

Dated: July 20, 2011.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

International Trade Administration

[A-580-809]

Circular Welded Non-Alloy Steel Pipe From the Republic of Korea: Amended Final Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On June 21, 2011, the Department of Commerce (the "Department") published its final results of review covering the period November 1, 2008, through October 31, 2009. *See Circular Welded Non-Alloy Steel Pipe From the Republic of Korea: Final Results of the Antidumping Duty Administrative Review*, 76 FR 36089 (June 21, 2011) ("Final Results").

Hyundai HYSCO alleged that the Department made a ministerial error in those *Final Results*. Based on our analysis of the allegation, we have made changes to the weighted-average dumping margin assigned to Hyundai HYSCO.

DATES: *Effective Date:* July 25, 2011.

FOR FURTHER INFORMATION CONTACT:

Joshua Morris or Matthew Jordan, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1779 or (202) 482-1540, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 16, 2011, Hyundai HYSCO, a producer/exporter not selected for individual examination in this review, alleged that the Department made a ministerial error in the cash deposit rate assigned to the company. No rebuttal comments were received.

Final Determination of No Shipments

In the *Preliminary Results*, the Department preliminarily concluded that Hyundai HYSCO had no knowledge that entries ascribed to it were destined for or entered into the United States during the period of review. *See Circular Welded Non-Alloy Steel Pipe From the Republic of Korea: Preliminary Results of the Antidumping Duty Administrative Review*, 75 FR 77838 (December 14, 2010) ("Preliminary Results"). We also noted that a dumping margin had been calculated for Hyundai HYSCO in a prior segment of this proceeding. In the *Final Results*, we failed to address these preliminary conclusions and, instead, assigned to Hyundai HYSCO the cash deposit rate for other companies not selected for individual examination.

We are now amending the *Final Results* to reflect the Department's determination that Hyundai HYSCO had no reviewable U.S. sales. *See Memorandum to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration from Gary Taverman, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations*, dated July 19, 2011, RE: "Ministerial Error for Final Results of Review."

The Department no longer rescinds reviews of companies with no entries. Instead, we complete the review and issue appropriate instructions to U.S. Customs and Border Protection ("CBP") based on the final results of the review (*see, e.g., Magnesium Metal From the*
