

member organizations with a credit designed to incentivize increased midpoint liquidity on PSX. Additionally, the Exchange believes providing a greater credit will act as an incentive for members to increase their participation on the Exchange. The Exchange believes that the proposed change to decrease to the credit for other non-displayed orders that provide liquidity is reasonable because the Exchange no longer needs to provide an incentive for members to provide liquidity in other non-displayed orders. The Exchange also believes the proposed change will incentivize greater use of midpoint orders over other non-displayed orders and thus increase the activity at the midpoint on the market, which, is beneficial to all members.

The Exchange believes that the proposed rule changes to non-displayed order credits are consistent with an equitable allocation of fees and are not unfairly discriminatory because they are uniformly available to all members and affect all members equally and in the same way.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.⁵ Phlx notes that it operates in a highly competitive market in which market participants can readily favor dozens of different competing exchanges and alternative trading systems if they deem charges at a particular venue to be excessive, or credit opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its charges and credits to remain competitive with other exchanges. Because competitors are free to modify their own charges and credits in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which changes to charges and credits in this market may impose any burden on competition is extremely limited.

In this instance, the slight decrease to the charge to member organizations entering orders in the PSX System and to credits for non-displayed orders with midpoint pegging that provide liquidity and for other non-displayed orders that provide liquidity do not impose a burden on competition because Exchange membership is optional and is the subject of competition from other

exchanges. These adjustments are reflective of the intent to increase the order flow on the Exchange. For these reasons, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets. Moreover, because there are numerous competitive alternatives to the use of the Exchange, it is likely that the Exchange will lose market share as a result of the changes if they are unattractive to market participants.

Accordingly, Phlx does not believe that the proposed rule changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.⁶ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. SECURITIES AND EXCHANGE COMMISSION

[Release No. 75886]

Securities Exchange Act of 1934; In the Matter of the Options Clearing Corporation; Order Discontinuing the Automatic Stay

September 10, 2015.

This matter comes before the Commission on the Options Clearing Corporation's ("OCC") motion to lift the

automatic stay of the approval, through delegated authority, of OCC's plan for raising additional capital ("Capital Plan") to support its function as a systemically important financial market utility. On January 26, 2015, the Commission issued a notice of filing of the proposed rule change regarding the Capital Plan.¹ After consideration of the record in the proposed rule change, the Division of Trading and Markets, for the Commission pursuant to delegated authority, issued an order approving ("Approval Order") the Capital Plan on March 6, 2015.²

BATS Global Markets, Inc. ("BATS"), BOX Options Exchange LLC ("BOX"), KCG Holdings, Inc. ("KCG"), Miami International Securities Exchange, LLC ("MIAX"), and Susquehanna International Group, LLP ("SIG") (collectively "Petitioners") each filed petitions for review of the Approval Order, challenging the action taken by delegated authority. The filing of the petitions automatically stayed the Approval Order pursuant to Commission Rule of Practice 431(e).³ The Commission has entered a separate Order Granting the Petitions for Review and Scheduling Filing of Statements.⁴

In response to the automatic stay imposed by the filing of the petitions to review the Approval Order, OCC filed a Motion to Lift the Stay on April 2, 2015, citing the public policy reasons for implementing the Capital Plan. The Petitioners responded, arguing that continuing the automatic stay is appropriate in light of the important policy and competition issues raised by the Approval Order.

The Commission finds that it is in the public interest to lift the stay during the pendency of the Commission's review. Under the circumstances of this case, the Commission believes, on balance, that strengthening the capitalization of a systemically important clearing agency,

such as OCC, is a compelling public interest. The Commission also believes that the concerns raised by the Petitioners regarding potential monetary and competitive harm do not currently justify maintaining the stay during the pendency of the Commission's review. Nor does the Commission believe that lifting the stay precludes meaningful review of the Approval Order.

For the reasons stated above, it is hereby:

Ordered that the automatic stay of delegated action pursuant to Commission Rule of Practice 431(e)⁵ is hereby discontinued, and that OCC's Motion to Lift Stay of the staff's action in approving by delegated authority File No. SR-OCC-2015-02⁶ is *granted*.

The order approving such proposed rule change shall remain in effect.

By the Commission.

Robert W. Errett,

Deputy Secretary.
