## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731-TA-1131-1134 (Preliminary)]

Polyethylene Terephthalate Film, Sheet, and Strip From Brazil, China, Thailand, and the United Arab Emirates

#### **Determinations**

On the basis of the record <sup>1</sup> developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Brazil, China, Thailand, and the United Arab Emirates of polyethylene terephthalate film, sheet, and strip provided for in subheading 3920.62.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

# Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the Federal Register as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in the investigations under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under

investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

#### **Background**

On September 28, 2007, a petition was filed with the Commission and Commerce by DuPont Teijin Films, Hopewell, VA: Mitsubishi Polvester Film of America, Greer, SC; SKC America, Inc., Covington, GA; and Toray Plastics (America), Inc., North Kingston, RI, alleging that an industry in the United States is materially injured and threatened with further material injury by reason of LTFV imports of polyethylene terephthalate film, sheet, and strip from Brazil, China, Thailand, and the United Arab Emirates. Accordingly, effective September 28, 2007, the Commission instituted antidumping duty investigation Nos. 731-TA-1131-1134 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the Federal Register of October 5, 2007 (72 FR 57068). The conference was held in Washington, DC, on October 19, 2007, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on November 13, 2007. The views of the Commission are contained in USITC Publication 3962 (November 2007), entitled Polyethylene Terephthalate Film, Sheet, and Strip from Brazil, China, Thailand, and the United Arab Emirates: Investigation Nos. 731–TA–1131–1134 (Preliminary).

By order of the Commission. Issued: November 21, 2007.

Background: According to the USTR's letter, the Governments of the United States and Israel are scheduled to initiate discussion in January 2008 of the United States-Israel Agreement on Trade in Agricultural Products (ATAP) to seek ways to improve the ATAP prior to its expiration on December 31, 2008. The ATAP is an adjunct to the Agreement on the Establishment of a Free Trade Area between the Government of Israel and the Government of the United States of America (FTA), which was implemented in 1985 and applies to trade in all products between the two countries. According to the letter, the United States and Israel have held differing views as to the meaning of certain rights and obligations related to agricultural products under the FTA. The ATAP was intended to address issues that have arisen based on these differing interpretations. Following the implementation of the 1985 FTA, most Israeli agricultural products exported to the United States had duty-free access to the U.S. market. The letter indicates that U.S. exporters of agricultural products, however, have continued to face significant market access barriers in Israel despite the ATAP; the letter states that an objective of the proposed negotiations on the ATAP is to address these barriers.

To assist USTR in preparing for these negotiations, the USTR requested, under authority delegated by the President and pursuant to section 332(g) of the Tariff Act of 1930, that the Commission initiate an investigation and prepare a report that provides advice as to the probable economic effect on both the U.S. and Israeli agricultural industries, respectively, if U.S.-Israel agricultural trade was conducted in a free trade environment. The USTR asked that the Commission, to the extent practicable, include the following in its report:

• Advice at the industry level that focuses on the main products traded or likely to be traded between the United States and Israel. The USTR asked that the Commission, in preparing its advice, assume that the new ATAP would include elimination of tariffs and tariff-

rate quotas (TRQs) on all agricultural products so as to calculate its maximum potential impact. The USTR asked that the Commission seek to measure these effects, to the extent data permit, through the use of partial equilibrium analysis or other quantitative methods.

- A list of the principal existing Israeli non-tariff barriers to agricultural trade, whether or not justified (such as technical barriers to trade, sanitary and phytosanitary measures, and TRQ administration) and information on TRQ fill rates, compiled from publicly available sources, and an analysis of their impact on U.S. agricultural exports to Israel.
- A description of Israeli agricultural trade, covering the major products and trading partners during 2002–2006, focusing on the countries and regions that have free trade agreements in effect with Israel.
- A description of the Israeli agricultural sector compiled from publicly available sources, including, to the extent possible, regional production and employment patterns, and principal factors affecting the competitiveness of the Israeli agricultural sector in domestic and international markets.

As requested by the USTR, the Commission expects to deliver its report by April 23, 2008. The USTR indicated that portions of the report will be classified as confidential.

Public Hearing: A public hearing in connection with this investigation will be held at the U.S. International Trade Commission Building, 500 E Street, SW., Washington, DC, beginning at 9:30 a.m. on January 10, 2008. Any person interested in attending the hearing as an observer or nonparticipant may call the Secretary to the Commission (202–205– 2000) after December 21, 2007, for information concerning whether the hearing will be held.

Persons with questions regarding electronic filing should contact the Secretary (202-205-2000). Any submissions that contain confidential business information must also conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). Section 201.6 of the rules requires that the cover of the document and the individual pages be clearly marked as to whether they are the "confidential" or "non-confidential" version, and that the confidential business information be clearly identified by means of brackets. All written submissions, except for confidential business information, will be made available in the Office of the Secretary to the Commission for inspection by interested parties.

The Commission may include some or all of the confidential business information submitted in the course of this investigation in the report it sends to the USTR. If the Commission publishes a public version of the report, the published version will not include portions of the report that the USTR has classified as confidential and will also not include any confidential business information.

By order of the Commission. Issued: November 21, 2007.
