

Place: Embassy Suites at the Chevy Chase Pavilion, 4300 Military Road, NW., Washington, DC 20015.

Contact Person: Aileen Schulte, PhD, Scientific Review Administrator, Division of Extramural Activities, National Institute of Mental Health, NIH, Neuroscience Center, 6001 Executive Blvd., Room 6140, MSC 9608, Bethesda, MD 20892-9608, 301-443-1225, aschulte@mail.nih.gov.

Name of Committee: National Institute of Mental Health Initial Review Group, Interventions Committee for Disorders Related to Schizophrenia, Late Life, or Personality.

Date: October 19, 2007.

Time: 8:15 a.m. to 2:30 p.m.

Agenda: To review and evaluate grant applications.

Place: Hilton Washington, 1919 Connecticut Avenue, NW., Washington, DC 20009.

Contact Person: Serena P. Chu, PhD, Scientific Review Administrator, Division of Extramural Activities, National Institute of Mental Health, NIH, Neuroscience Center, 6001 Executive Blvd., Room 6154, MSC 9609, Bethesda, MD 20892, 301-443-0004, sechu@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.242, Mental Health Research Grants; 93.281, Scientist Development Award, Scientist Development Award for Clinicians, and Research Scientist Award; 93.282, Mental Health National Research Service Awards for Research Training, National Institutes of Health, HHS).

Dated: August 29, 2007.

Anna Snouffer,

Acting Director, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Allergy and Infectious Diseases; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the contract proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Allergy and Infectious Diseases Special Emphasis Panel, Phase I Clinical Trial Units for Therapeutics Against Infectious Diseases.

Date: September 28, 2007.

Time: 8 a.m. to 6 p.m.

Agenda: To review and evaluate contract proposals.

Place: Hilton Washington/Rockville, 1750 Rockville Pike, Rockville, MD 20852.

Contact Person: Brenda Lange-Gustafson, PhD, Scientific Review Administrator, NIAID, DEA, Scientific Review Program, Room 3122, 6700-B Rockledge Drive, MSC-7616, Bethesda, MD 20892-7616, 301-451-3684, bgustafson@niaid.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.855, Allergy, Immunology, and Transplantation Research; 93.856, Microbiology and Infectious Diseases Research, National Institutes of Health, HHS)

August 28, 2007.

Anna Snouffer,

Deputy Director, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5125-N-36]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

EFFECTIVE DATE: September 7, 2007.

FOR FURTHER INFORMATION CONTACT: Kathy Ezzell, Department of Housing and Urban Development, Room 7262, 451 Seventh Street SW., Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these

telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: August 30, 2007.

Mark R. Johnston,

Deputy Assistant Secretary for Special Needs.

BILLING CODE 4210-67-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Draft Recovery Plan for Columbia Basin Distinct Population Segment of the Pygmy Rabbit (*Brachylagus idahoensis*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft recovery plan for the Columbia Basin distinct population segment of the pygmy rabbit for public review and comment.

DATES: We must receive any comments on the draft recovery plan on or before November 6, 2007.

ADDRESSES: The draft recovery plan and reference materials are available for inspection, by appointment, during normal business hours at the following location: U.S. Fish and Wildlife Service, Upper Columbia Fish and Wildlife Office, 11103 East Montgomery Drive, Spokane, Washington 99206 (Telephone: 509-891-6839). Submitted comments regarding the draft recovery plan will also be available for public inspection, by appointment, during normal business hours following the public review and comment period. Requests for copies of the draft recovery plan and submission of written comments or materials regarding the plan should be addressed to the Field Supervisor at the above address. An electronic copy of the draft recovery

plan is also available at: <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT:

Chris Warren, Fish and Wildlife Biologist, by writing to the above address, by calling 509-893-8020, or by electronic mail at: chris_warren@fws.gov.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*) and our endangered species program. Recovery means improvement of the status of listed species to the point at which listing is no longer required under the criteria set out in section 4(a)(1) of the Act. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the measures needed for recovery.

Section 4(f) of the Act directs the Secretaries of Interior and Commerce to develop and implement recovery plans for species listed as endangered or threatened, unless such plans will not promote the conservation of the species. We and the National Marine Fisheries Service, as appropriate, have been delegated responsibility for administering the Act. Section 4(f) of the Act requires that public notice, and an opportunity for public review and comment, be provided during development of recovery plans. We will consider all information presented during the public comment period on each new or revised recovery plan. Substantive comments may or may not result in changes to a recovery plan. However, any substantive comments regarding recovery plan implementation will be forwarded to appropriate Federal agencies or other interested entities so that they can take these comments into account during the implementation of their respective management programs. Individual responses to submitted comments will not be provided.

The pygmy rabbit is the smallest rabbit species in North America, with adult lengths of under 1 foot and weights of less than 1 pound. The pygmy rabbit is distinguishable from other rabbit species by its small size, short ears, small hind legs, and lack of white on the tail. Historically, pygmy rabbits were found throughout the semi-arid sagebrush steppe biome of the Great Basin and adjacent intermountain regions of the western United States,

including portions of Oregon, California, Nevada, Utah, Idaho, Montana, Wyoming, and Washington. Within this broad biome, pygmy rabbits are typically found in habitat types that include tall, dense stands of sagebrush (*Artemisia* spp.), on which they are highly dependent for both food and shelter throughout the year. The pygmy rabbit is one of only two rabbit species in North America that digs its own burrows and, therefore, is most often found in areas that also include relatively deep, loose soils that allow burrowing.

The pygmy rabbit has been present within the Columbia Basin, a geographic area that extends from northern Oregon through central Washington, for over 100,000 years. This distinct population segment of the pygmy rabbit, which is referred to as the Columbia Basin pygmy rabbit and is the subject of this draft recovery plan, is believed to have been disjunct from the remainder of the species' range for at least 10,000 years, as suggested by the fossil record, and possibly as long as 40,000 to 115,000 years, as suggested by population genetic analyses. Museum specimens and sighting records indicate that during the first half of the 20th century, the Columbia Basin pygmy rabbit likely occurred in portions of six Washington counties, including Douglas, Grant, Lincoln, Adams, Franklin, and Benton.

Columbia Basin pygmy rabbits were thought to be extirpated from Washington during the mid-1900s, however, they were again located in the State in 1979. Intensive surveys in 1987 and 1988 discovered five small subpopulations in southern Douglas County; three occurred on State lands and two on private lands. The number of Columbia Basin pygmy rabbit subpopulations and active burrows in Washington has declined dramatically over the past decade. In addition, surveys of the last known subpopulation conducted from 2004 through 2006 did not detect any animals, indicating that the Columbia Basin pygmy rabbit may have been extirpated from the wild. We listed this distinct population segment under emergency provisions of the Act in 2001, and fully listed it as endangered in 2003, without critical habitat.

Large-scale loss and fragmentation of native shrub-steppe habitats, primarily for agricultural development, likely played a primary role in the long-term decline of the Columbia Basin pygmy rabbit. Imminent threats related to small population size include chance environmental events (e.g., extreme weather), catastrophic habitat loss or resource failure (e.g., from wildfire),
