

19 CFR 351.526(b) and (d). Similarly, parties wishing the Department to consider whether a company's change in ownership has extinguished the benefit from prior non-recurring, allocable, subsidies must include with their substantive responses information and documentation supporting their claim that all or almost all of the company's shares or assets were sold in an arm's length transaction, at a price representing fair market value, as described in the *Notice of Final Modification of Agency Practice Under Section 123 of the Uruguay Round Agreements Act*, 68 FR 37125 (June 23, 2003) (*Modification Notice*). See *Modification Notice* for a discussion of the types of information and documentation the Department requires.

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in the Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Please consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews.¹ Please consult the Department's regulations at 19 CFR Part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

¹ In comments made on the interim final sunset regulations, a number of parties stated that the proposed five-day period for rebuttals to substantive responses to a notice of initiation was insufficient. This requirement was retained in the final sunset regulations at 19 CFR 351.218(d)(4). As provided in 19 CFR 351.302(b), however, the Department will consider individual requests for extension of that five-day deadline based upon a showing of good cause.

ADDRESSES: The meeting will be held at the Congress Hall Hotel, 251 Beach Avenue, Cape May, NJ 08204 (telephone: 609-884-8421).

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to discuss issues to be addressed in Amendment 11 to the Atlantic, Mackerel, Squid and Butterfish Fishery Management Plan. The primary focus of Amendment 11 will be the development of a limited or controlled access program for the Atlantic mackerel fishery. Other issues identified during scoping which may be discussed include the types of qualifying criteria that the Council

should consider for a limited access program for the Atlantic mackerel fishery (including what levels of landings should be considered and what time period should be examined), whether and how the control date of July 5, 2002 should be utilized in establishing qualifying criteria, whether historical participants should be considered differently than newer more recent entrants in the fishery and if separate qualifying criteria should be developed for the directed and incidental catch fishery. Additional issues identified during scoping include the consideration of a trigger mechanism that would implement limited access in the mackerel fishery in the future, vessel upgrade provision, rules governing at sea processing and transfers at sea of Atlantic mackerel, and the degree to which overlap of limited access programs for Atlantic mackerel and herring should be considered. Technical issues which have arisen since scoping which may be discussed for inclusion in this amendment include possible revisions to the overfishing definition for Atlantic mackerel and the specification of allowable biological catch for the species.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
