Rural Utilities Service

Title: RUS Electric Loan Application and Related Reporting Burdens.

OMB Control Number: 0572–0032.

Summary Of Collection: The Rural Utilities Service (RUS) was established in 1994 by the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub. L. 103–354, 108 stat. 3178, 7 U.S.C. 6941 *et seq.*) as successor to the Rural Electrification Administration (REA) with respect to certain programs, including the electric loan and loan guarantee program authorized under the Rural Electrification Act (RE Act) of 1936. The RE Act authorizes and empowers the Administrator of RUS to make and guarantee loans to furnish and improve electric service in rural areas. These loans are amortized over a period of up to 35 years and secured by the borrower’s electric assets and/or revenue. RUS will collect information including studies and reports to support borrower loan applications.

Need and Use of the Information: RUS will collect information to determine the eligibility of applicants for loans and loan guarantees under the RE Act; monitor the compliance of borrowers with debt covenants and regulatory requirements in order to protect loan security; ensure that borrowers use loan funds for purposes consistent with the statutory goals of the RE Act; and obtain information on the progress of rural electrification and evaluate the success of RUS program activities. Without the information RUS would be unable to accomplish statutory goals.

Description of Respondents: Not-for-profit institutions; Business or other for-profit.

Number of Respondents: 625.

Frequency of Responses: Reporting: On occasion; Annually.

Total Burden Hours: 41,634.

Title: 7 CFR part 1724 and Part 1738 Electric Engineering, Architectural Services and Design Policies and Procedures; and Rural Broadband Access Loans and Loan Guarantees.

OMB Control Number: 0572–0118.

Summary of Collection: The Rural Electrification Act of 1936, 7 U.S.C. 901 *et seq.*, as amended, authorizes Rural Utilities Service (RUS) to make loans in several States and Territories of the United States for broadband access and rural electrification and the furnishing and improving of electric energy to persons in rural areas. Title 7 CFR 1724 requires each borrower to select a qualified architect to perform certain architectural services and to use the designated form that provides for these services. The agency has developed standardized contractual forms used by borrowers to contract for services.

Need and Use of the Information: The information collected stipulates the parties to the agreement, contain certain information relating to the approved loan or loan guarantee, and provide detailed contractual obligations and services to be provided and performed relating to construction, project design, construction management, compensation, and related information. The contractual forms provide standardized contract agreements between the electric or broadband borrower and the engineering or architectural firm providing services to the borrower. This has resulted in substantial savings to borrowers by reducing preparation of the documentation and the costly review by the government.

Description of Respondents: Business or other for-profit.

Number of Respondents: 4.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 8.

SUPPLEMENTARY INFORMATION:

Title: Animal Disposition Reporting.

OMB Number: 0583-0139.

Expiration Date of Approval: 9/30/2021.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting renewal of the approved information collection regarding animal disposition reporting in the Public Health Information System. There are no changes to the existing information collection. The approval for this information collection will expire on September 30, 2021.

In accordance with 9 CFR 320.6, 381.180, 352.15, and 354.91, establishments that slaughter meat, poultry, exotic animals, and rabbits are required to maintain certain records regarding their business operations and to report this information to the Agency as required. Poultry slaughter establishments complete FSIS Form 6510-7 after each shift and submit it to the Agency. Other slaughter establishments provide their business records to FSIS to report the necessary information.

FSIS uses this information to plan inspection activities, to develop sampling plans, to target establishments for testing, to develop the Agency budget, and to develop reports to Congress. FSIS also provides this data to other USDA agencies, including the National Agricultural Statistics Service (NASS), the Animal and Plant Health Inspection Service (APHIS), and the Agricultural Marketing Service (AMS), for their publications and for other functions.

FSIS has made the following estimates as part of an information collection assessment:

Estimate of Burden: FSIS estimates that it will take slaughter establishments an average of two minutes per response to collect and submit this information to FSIS.

Respondents: Slaughter establishments.

Estimated Number of Respondents: 1,159.

Estimated Number of Annual Responses per Respondent: 600.

Estimated Total Annual Burden on Respondents: 23,180 hours.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record. Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Mailstop 3758, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS web page located at: <https://www.fsis.usda.gov/federal-register>.

FSIS will also announce and provide a link to this **Federal Register** publication through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience.

In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <https://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. SUPPLEMENTARY INFORMATION:

Title: Requirements To Notify FSIS of Adulterated or Misbranded Product, Prepare and Maintain Written Recall Procedures, and Document Certain HACCP Plan Reassessments.

OMB Number: 0583-0144.

Expiration Date of Approval: 9/30/2021.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting revision of the approved information collection regarding requirements for official establishments to notify FSIS of adulterated or misbranded product, prepare and maintain written recall procedures, and document certain HACCP plan reassessments. FSIS has decreased the burden estimate for this collection by 37,515 hours due to more recent, updated information.

The regulations at 9 CFR 418.2, 418.3 and 417.4(a)(3) require establishments to notify FSIS that they have shipped or received adulterated or misbranded product in commerce, prepare and maintain written recall procedures, and

document certain HACCP plan reassessments. Accordingly, FSIS requires three information collection activities under these regulations.

First, FSIS requires that official establishments notify the appropriate District Office that an adulterated or misbranded product received by or originating from the establishment has entered commerce, if the establishment believes or has reason to believe that this has happened. Industry representatives of official establishments may now use FSIS Form 5720-16, *Industry Report of Adulteration*, to notify FSIS that an adulterated or misbranded meat, meat food, poultry, or poultry product was received from or shipped to commerce by the official establishment. The form is available as a paper form and digitally in PHIS.

Second, FSIS requires that establishments prepare and maintain written procedures for the recall of meat and poultry products produced and shipped by the establishment for use should it become necessary for the establishment to remove product from commerce. These written recall procedures have to specify how the establishment will decide whether to conduct a product recall, and how the establishment will effect the recall should it decide that one is necessary.

Finally, FSIS requires that establishments document each reassessment of the establishment's HACCP plans. FSIS requires establishments to reassess their HACCP plans annually and whenever any changes occur that could affect the hazard analysis or alter the HACCP plan. For annual reassessments, if the establishment determines that no changes are necessary, documentation of this determination is not necessary.

FSIS has made the following estimates as part of an information collection assessment.

Estimate of burden: The public reporting burden for this collection of information is estimated to average .232 hours per response.

Respondents: Official meat and poultry products establishments.

Estimated annual Number of Respondents: 6,300.

Estimated average number of responses per respondent: 6.8.

Estimated annual number of responses: 42,900.

Estimated total annual burden on respondents: 9,960.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record. Copies of this information collection
