Needs and Uses: On September 27, 2018, the Commission released a *Report and Order* in WC Docket No. 17-192, FCC 18-137 (*Report and Order*). In the *Report and Order*, the Commission established competitive bidding as a toll free number assignment method, and called for an auction for select numbers in the toll free code 833 as an experiment to test this method. To verify the relationship between the responsible organization (RespOrg) and the potential subscriber, a Letter of Authorization (LOA) is required during the bidding process. Additionally, a key component to the effectiveness of the auction is the adoption of a post-auction secondary market (Secondary Market) for the sale of the rights to use 833 code toll free numbers. Collecting data on Secondary Market transactions will allow the Commission to evaluate the entire experimental auction process and determine the potential use of competitive bidding in future toll free number assignments.

Federal Communications Commission.

Secretary, Office of the Secretary.
