

The analysis will involve a variety of issues pertaining to the following: rangeland vegetation, rangeland grazing use, wild horses, special status plants, water resources and riparian areas, fish and aquatic habitat, including a Federal threatened species of fish, wildlife, and wildlife habitat, special status animals, recreation, wilderness study areas, land outside of wilderness study areas possessing wilderness characteristics, and archeological and paleontological materials.

This document also announces the beginning of the public scoping process and seeks public input on the aforementioned issues. The BLM has previously held scoping meetings for this land area in preparation for an Environmental Assessment and Finding of No Significant Impact. However, for reasons related to ongoing litigation, the Vale District now will examine its proposed action through an EIS. Thus, for procedural reasons, a second opportunity for public scoping is available with this EIS. The purpose of the public scoping is to determine concerns and ideas that will help guide the decision-making process. You may submit comments on the aforementioned issues in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the **ADDRESSES** section above. To have your name added to the mailing list, reply to the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

To be most helpful, you should submit comments by January 21, 2010. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed.

The BLM will evaluate identified issues, and will place them into one of three categories:

1. Issues to be resolved in the EIS;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this EIS.

The BLM will provide an explanation in the EIS as to why we placed an issue in category two or three.

Carolyn R. Freeborn,

Jordan Field Manager, Vale District Office.
