**SUPPLEMENTARY INFORMATION:** By Federal law, all lands within the National Wildlife Refuge System are to be managed in accordance with an approved comprehensive conservation plan. These plans will guide management decisions and identify refuge goals, long-range objectives, and strategies for achieving refuge purposes. The planning process will consider many elements, including habitat and wildlife management, habitat protection and acquisition, public use, and cultural resources. Public input into this planning process is essential. Plans will provide other agencies and the public with a clear understanding of the desired conditions for the refuge and how the Service will implement management strategies.

Review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), National Environmental Policy Act Regulations (40 CFR parts 1500-1508), other appropriate Federal laws and regulations, including the National Wildlife Refuge System Improvement Act of 1997, Executive Order 12996, and Service policies and procedures for compliance with those regulations.

We estimate that the draft environmental documents will be available for public review by August 2000.

Dated: April 20, 2000.
