

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission**

[Docket No. CP25–29–000]

**Eastern Gas Transmission and Storage, Inc.; Notice of Availability of the Environmental Assessment for the Proposed Capital Area Project**

EGTS states the purpose of the Project is to provide 67,500 dekatherms per day of natural gas firm transportation service to allow the Project's customer, Washington Gas Light Company to improve reliability and serve peak demand needs of Washington Gas' natural gas customers in Maryland, Virginia, and Washington, DC.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project would not constitute a major federal action significantly affecting the quality of the human environment.

The Project would consist of the following modifications to EGTS facilities:

- adding one 6,130 horsepower (hp) gas-fired turbine compressor unit and ancillary facilities at the Centre Compressor Station in Centre County, Pennsylvania;
- adding one 11,110 hp gas-fired turbine compressor unit and installing ancillary facilities at the Chambersburg Compressor Station in Franklin County, Pennsylvania;
- adding one 5,000 hp electric-driven compressor unit and ancillary facilities at the Leesburg Compressor Station in Loudoun County, Virginia; and
- replacing gas coolers and headers and cold recycle piping, and installing new check valves, at the Finnefrock Compressor Station in Clinton County, Pennsylvania.

The Commission mailed a copy of the *Notice of Availability* of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website ([www.ferc.gov](http://www.ferc.gov)), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental->

*documents*). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.* CP25–29). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC, on or before 5:00 p.m. Eastern Time on September 8, 2025.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov). Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the

project docket number (CP25–29–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: August 8, 2025.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP25–219–000]

#### **Gulf South Pipeline Company, LLC; Notice of Schedule for the Preparation of An Environmental Assessment for the Southeast Compression Utility and Reliability Expansion Project**

On April 16, 2025, Gulf South Pipeline Company, LLC (Gulf South) filed an application in Docket No. CP25–219–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities in Madison Parish, Louisiana and Jasper, Forrest, and Hinds Counties, Mississippi. The proposed project is known as the Southeast Compression Utility and Reliability Expansion (SECURE) Project, and would involve modifications at three existing compressor stations and construction of one new compressor station. The SECURE Project would provide 280,000 dekatherms per day (Dth/d) of firm transportation service to certain southeast markets on Gulf South's system, including power generation customers.

On April 28, 2025, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the SECURE Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the project and the planned schedule for the completion of the environmental review.<sup>1</sup> The EA will be issued for a 30-day comment period.

#### **Schedule for Environmental Review**

Issuance of EA—December 29, 2025

<sup>1</sup> For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1754481444

90-day Federal Authorization Decision Deadline<sup>2</sup>—March 29, 2026

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

#### **Project Description**

The SECURE project would consist of the following facilities:

- installation of one 27,677-horsepower (hp) Solar Titan 250 compressor unit at the existing Tallulah Compressor Station in Madison Parish, Louisiana;
- installation of one 13,290-hp Solar Mars 100 compressor unit at the existing Jasper Compressor Station in Jasper County, Mississippi;
- installation of one 16,997-hp Solar Titan 130 compressor unit and restaging the existing Solar Mars 100 compressor unit at the existing Forrest Compressor Station in Forrest County, Mississippi; and
- construction of the new Hinds Compressor Station, including one 27,667-hp Solar Titan 250 compressor unit, in Hinds County, Mississippi.

#### **Background**

On May 30, 2025, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed SECURE Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. The Commission received comments from the Louisiana Department of Wildlife and Fisheries, Louisiana Department of Environmental Quality, Louisiana Ecological Services Office, and one potentially affected landowner. The primary issues raised by the commenters are noise, air quality, recreation, state and federally listed special status species, state emission standards and other potentially required state permits, solid and hazardous waste, water quality, groundwater, soil contamination, and alternative compressor station sites. All substantive comments will be addressed in the EA.

<sup>2</sup> The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

#### **Additional Information**

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

Additional information about the project is available from the Commission's Office of External Affairs at (866) 208–FERC or on the FERC website ([www.ferc.gov](http://www.ferc.gov)). Using the “eLibrary” link, select “General Search” from the eLibrary menu, enter the selected date range and “Docket Number” excluding the last three digits (*i.e.*, CP25–219), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208–3676, TTY (202) 502–8659, or at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov). The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: August 8, 2025.
