

unpatentable. Comm'n Notice at 2–3 (June 9, 2020). The Commission determined not to review the ID's findings that the asserted claims of the '184 patent are not invalid, the domestic industry requirement is satisfied, and there is no violation of Section 337 with respect to either the '174 or '013 patents. *Id.* The Commission asked the parties to brief several questions regarding: (i) The impact, if any, of the PTAB's Final Written Decision finding that asserted claims of the '184 patent, among others, are unpatentable; (ii) whether DJI's new rotor locking designs should be adjudicated as part of this investigation; and (iii) whether DJI's Phantom 4 Pro and Inspire UAVs infringe the asserted claims of the '184 patent. *Id.* at 3–4. The Commission also asked the parties for briefing on remedy, bonding, and the public interest and extended the target date for completion of this investigation to August 10, 2020. *Id.* at 4–5. The target date was further extended to August 20, 2020. Comm'n Notice (August 10, 2020).

The parties filed their initial responses to the Commission's review questions on June 24, 2020, and their respective reply briefs on July 1, 2020.

Having considered the parties' submissions, the ID, and the record in this investigation, the Commission has determined that DJI has violated Section 337 by importing into the United States, selling for importation, or selling in the United States after importation certain unmanned aerial vehicles and components thereof that infringe claims 1 and 2 of the '184 patent. In particular, the parties did not petition for review of the ID's findings that DJI's Mavic Pro, Mavic Air, and Spark UAVs infringe claim 1 of the '184 patent. The Commission has determined that those UAVs also infringe claim 2 and that DJI's Phantom 4 Pro UAV infringes both claims 1 and 2. The Commission further determines that DJI's Inspire UAV does not infringe either claim 1 or 2 of the '184 patent. The Commission also affirms the ALJ's decision not to adjudicate DJI's new rotor locking designs in the present investigation.

The Commission has determined that the appropriate remedy is: (a) A limited exclusion order prohibiting the importation of certain unmanned aerial vehicles and components thereof that are covered by claims 1 or 2 of the '184 patent; and (b) cease and desist orders against respondents iFlight and DJI Service. The Commission has determined that the public interest factors enumerated in Section 337(d)(1) and (f)(1) do not preclude issuance of the limited exclusion order or cease and desist orders. The Commission has also determined to set a bond in the amount

of 11.5 percent of the entered value of the excluded products imported during the period of Presidential review (19 U.S.C. 1337(j)).

The Commission has also determined to suspend enforcement of the limited exclusion order, cease and desist orders, and bond provision pending final resolution of the PTAB's Final Written Decision regarding the '184 patent. *See* 35 U.S.C. 318(b); *SZ DJI Technology Co. v. Autel Robotics USA, LLC*, IPR2019–00343, Patent 9,260,184, Final Written Decision Determining All Challenged Claims Unpatentable (May 21, 2020).

The Commission's orders and opinion were delivered to the President and United States Trade Representative on the day of their issuance.

The Commission voted to approve these determinations on August 20, 2020. This investigation is hereby terminated.

The authority for the Commission's determination is contained in Section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: August 20, 2020.

Lisa Barton,

Secretary to the Commission.

DEPARTMENT OF LABOR

Office of the Assistant Secretary for Administration and Management

Agency Information Collection Activities; Comment Request; Department of Labor Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, “Department of Labor Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by October 26, 2020.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free by contacting Crystal Rennie by telephone at (202) 693–0456, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Office of the Assistant Secretary for Administration, Room N1301, 200 Constitution Avenue NW, Washington, DC 20210; by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT: Crystal Rennie by telephone at (202) 693–0456, TTY 202–693–8064, (this is not a toll-free number) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training, or changes, in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the DOL and its customers and stakeholders. The collections will also allow feedback to contribute directly to

the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative result.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1225-0088.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-OASAM.

Type of Review: New.

Title of Collection: Department of Labor Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.
