

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket Nos. CP13–84–000; PF12–19–000]

Texas Eastern Transmission, LP; Notice of Application for Certificate of Public Convenience and Necessity and Authorization for Abandonment

Take notice that on February 27, 2013, Texas Eastern Transmission, LP (Texas Eastern), 5400 Westheimer Court, Houston, Texas 77056, filed with the Federal Energy Regulatory Commission an application under Sections 7(b) and 7(c) of the Natural Gas Act (NGA) for its proposed TEAM 2014 Project.

Specifically, Texas Eastern requests authorization under NGA Sections 7(b) and 7(c) to construct, own, operate, and maintain certain pipeline and compression facilities and related appurtenances and to abandon in place certain compression facilities. Texas Eastern states that the project is necessary to increase capacity on the Texas Eastern system by 600,000 dekatherms per day from supply points in the Marcellus Shale region to delivery points in New York, New Jersey, Ohio, Mississippi and Louisiana. Texas Eastern also seeks authority to charge initial incremental recourse rates for firm service on the TEAM 2014 Project facilities and existing system rates for interruptible service on such facilities, as well as any waivers, authority, and further relief as may be necessary to implement the proposal described in its application. The complete application is on file with the Commission and open to public inspection.

On July 13, 2012, the Commission staff granted Texas Eastern's request to utilize the Pre-Filing Process and assigned Docket No. PF12–19 to staff activities involved with Texas Eastern's TEAM 2014 Project. Now, as of the filing of the application on February 27, 2013, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP13–84–000, as noted in the caption of this Notice.

Texas Eastern states that the facilities that are proposed as part of the TEAM 2014 Project involve pipeline looping and aboveground modifications located on various segments of the Texas Eastern system in Pennsylvania, West Virginia, Ohio, Kentucky, Tennessee, Alabama, and Mississippi. This comprises approximately 33.6 miles of new 36-inch diameter pipeline loop and related aboveground facilities, compressor station upgrades and

abandonments resulting in a net increase of 77,100 horsepower of compression, and certain other facility modifications to accommodate bi-directional flow along Texas Eastern's system. The cost of the TEAM 2014 Project is approximately \$519.7 million.

Copies of this filing are available for review at the Commission in the Public Reference Room, or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TTY, (202) 502–8659.

Questions, correspondence and communications concerning this application should be addressed to Berk Donaldson, Director, Rates and Certificates, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, TX 77251–1642; Phone (713) 627–4488, FAX (713) 627–5947.

Texas Eastern has requested that the Commission issue a final order in this proceeding by November 21, 2013, to enable timely commencement of construction of the proposed facilities to meet a November 1, 2014 in-service date.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, before the comment date of this notice, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in

determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's web site (www.ferc.gov) under the "e-Filing" link. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on April 5, 2013.

Dated: March 14, 2013.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 12429–009]

Clark Canyon Hydro, LLC; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Amendment of License.

b. *Project No:* 12429–009.

c. *Date Filed:* January 28, 2013.

d. *Applicant:* Northwest Power Services on behalf of Clark Canyon Hydro, LLC.

e. *Name of Project:* Clark Canyon Dam Hydroelectric Project.

f. *Location:* The Clark Canyon Dam Hydroelectric Project is located on the Beaverhead River 18 air miles southwest of the town of Dillon, in Beaverhead County, Montana.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a–825r.

h. *Applicant Contact:* Brent Smith, President, Northwest Power Services, Inc., P.O. Box 535, Rigby, ID 83442, (208) 521–2473.

i. *FERC Contact:* Mary Karwoski at (202) 502–6543, or email: mary.karwoski@ferc.gov.

j. *Deadline for filing comments, motions to intervene, and protests:* April 15, 2013.

All documents may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Please include the project number (p-2601-021) on any comments, motions, or recommendations filed.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The applicant proposes to modify Article 406 *Timing of Construction Activities* of the original license¹ by: (1) Removing the restriction that construction activities be limited to normal daytime business hours; (2) removing the restriction that no construction shall take place two days before and after the peak summer holiday weekends (Memorial Day, Independence Day, and Labor Day); and requiring only that no construction will take place on holidays and peak summer holiday weekends (Memorial Day, Independence Day, and Labor Day). The applicant indicates that the benefit to this modification is that construction can be completed within one year, thereby limiting the impact to recreation users in nearby campsites to one recreation season. The site of the proposed construction activities is at the Clark Canyon dam, located near the

intersection of Montana 324 and Interstate 15 in southwest Montana.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field (P-12429) to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above. Agencies may obtain copies of the application directly from the applicant.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this

proceeding, in accordance with 18 CFR 385.2010.

Dated: March 14, 2013.

Kimberly D. Bose,
Secretary.

[Docket No. CP13-94-000]

Kinder Morgan Texas Pipeline LLC; Notice of Application

Take notice that on March 1, 2013 Kinder Morgan Texas Pipeline LLC (KM Texas), 1001 Louisiana Street, Houston, Texas 77002, filed in Docket No. CP13-94-000, an application pursuant to section 3 of the Natural Gas Act (NGA), to amend its authorization and Presidential Permits to allow it to import and export natural gas from the United States to Mexico utilizing KM Texas's existing cross-border facilities. Specifically, KM Texas proposes to increase the authorized design capacity of its border facilities from approximately 425 million cubic feet (MMcf) per day to 700 MMcf per day to provide Pemex-Gas Y Petroquímica Basica and other potential end users in Mexico with increased gas supplies, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Lee Baskin, Director, Regulatory, Kinder Morgan Texas Pipeline Group, 1001 Louisiana Street, Suite 1000, Houston, Texas 77002, or phone (713) 369-8810 or facsimile (713) 495-4845 or email lee_baskin@kindermorgan.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the
