

information collection, the Mink Survey, that expires December 31, 2001.

DATES: Comments on this notice must be received by October 18, 2001 to be assured of consideration.

ADDRESSES: Comments may be sent to Ginny McBride, NASS OMB Clearance Officer, U.S. Department of Agriculture, Room 5330B South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024 or gmcbride@nass.usda.gov.

FOR FURTHER INFORMATION CONTACT: Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–4333.

SUPPLEMENTARY INFORMATION:

Title: Mink Survey.

OMB Control Number: 0535–0212.

Approval Expires: December 31, 2001.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production. The Mink Survey collects data on the number of mink pelts produced, the number of females bred, and the number of mink farms. Mink estimates are used by the federal government to calculate total value of sales and total cash receipts, by state governments to administer fur farm programs and health regulations, and by universities in research projects. The Mink Survey was approved by OMB for a 3-year period in 1998. NASS intends to request that the survey be approved for another 3 years.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10 minutes per response.

Respondents: Farmers.

Estimated Number of Respondents: 425.

Estimated Total Annual Burden on Respondents: 71 hours.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the Agency OMB Clearance Officer, at (202) 720–5778. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the

agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, August 6, 2001.

Ron Bosecker,

Administrator.

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Reinstate a Previously Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. No. 104–13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995), this notice announces the intent of the National Agricultural Statistics Service (NASS) to request reinstatement of a previously approved information collection, the National Childhood Injury and Occupational Injury Survey of Farm Operators.

DATES: Comments on this notice must be received by October 18, 2001 to be assured of consideration.

ADDRESSES: Comments may be sent to Ginny McBride, NASS OMB Clearance Officer, U.S. Department of Agriculture, Room 5330B South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024 or gmcbride@nass.usda.gov.

FOR FURTHER INFORMATION CONTACT: Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–4333.

SUPPLEMENTARY INFORMATION:

Title: National Childhood Injury and Occupational Injury Survey of Farm Operators.

OMB Number: 0535–0235.

Type of Request: Reinstatement of a Previously Approved Information Collection.

Abstract: The National Childhood Injury and Occupational Injury Survey of Farm Operators is designed to: (1) Provide estimates of childhood nonfatal injury incidence and description of injury occurring to children less than 20 years of age who reside, work, or visit farms and (2) describe the occupational injury experience of all farm operators. Data will be collected by telephone from all 50 states with 25,000 operations receiving a Childhood Injury version only and 25,000 receiving a combined Childhood Injury and Occupational Injury version. Questions will relate to injury problems occurring during the 2001 calendar year. These data will update and enhance existing data series used by the National Institute of Occupational Safety and Health to: (1) Establish a measure of the number and rate of childhood injuries associated with farming operations and study the specific types of injuries sustained and (2) describe the scope and magnitude of occupational injuries associated with farming operations. The collection combines the youth and occupational injury studies to reduce the number of contacts on the targeted farm population. Reports will be generated and information disseminated to all interested parties concerning the finding of this study.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 minutes per response for the childhood injury questions and 10 minutes for the combined interview. Demographic data will be collected from all respondents although screen-outs will be allowed early in both instruments if no injuries were incurred.

Respondents: Farm Operators.

Estimated Number of Respondents: 50,000.

Estimated Total Annual Burden on Respondents: 5,400 hours.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the

Agency OMB Clearance Officer, at (202) 720-5778.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, August 6, 2001.

Ron Bosecker,
Administrator.

Persulfates From the People's Republic of China: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On April 9, 2001, the Department of Commerce published the preliminary results of its third administrative review of the antidumping duty order on persulfates from the People's Republic of China. The merchandise covered by this order are persulfates, including ammonium, potassium, and sodium persulfates. The period of review is July 1, 1999, through June 30, 2000.

Based on our analysis of the comments received, we have made changes in the margin calculations. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margins are

listed below in the section entitled "Final Results of the Review."

EFFECTIVE DATE: August 14, 2001.

FOR FURTHER INFORMATION CONTACT: Dinah McDougall or Shawn Thompson, AD/CVD Enforcement Group I, Office II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-3773 or (202) 482-1776, respectively.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the regulations of the Department of Commerce (the Department) are to 19 CFR Part 351 (2000).

Background

On April 9, 2001, the Department published the preliminary results of the 1999-2000 administrative review of the antidumping duty order on persulfates from the People's Republic of China (PRC). *See Persulfates from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review, and Partial Rescission of Administrative Review*, 66 FR 18439 (April 9, 2001) (*Preliminary Results*). We gave interested parties an opportunity to comment on our preliminary results. The Department has conducted this administrative review in accordance with section 751 of the Act.

Scope of Review

The products covered by this review are persulfates, including ammonium, potassium, and sodium persulfates. The chemical formula for these persulfates are, respectively, $(\text{NH}_4)_2\text{S}_2\text{O}_8$, $\text{K}_2\text{S}_2\text{O}_8$, and $\text{Na}_2\text{S}_2\text{O}_8$. Ammonium and potassium persulfates are currently classified under subheading 2833.40.60 of the Harmonized Tariff Schedule of the United States (HTSUS). Sodium persulfate is classified under HTSUS subheading 2833.40.20. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this review is dispositive.

Separate Rates

Shanghai Ai Jian Import & Export Corporation (Ai Jian) has requested a separate, company-specific antidumping

duty rate. In our preliminary results, we found that Ai Jian had met the criteria for the application of a separate antidumping duty rate. *See Preliminary Results* 65 FR at 18440. We have not received any other information since the preliminary results which would warrant reconsideration of our separate rates determination with respect to this company. We therefore determine that Ai Jian in this administrative review should be assigned an individual dumping margin.

With respect to Sinochem Jiangsu Wuxi Import and Export Corporation (Wuxi), which did not respond to the Department's questionnaire, we determine that this company does not merit a separate rate. The Department assigns a single rate to companies in a non-market economy, unless an exporter demonstrates an absence of government control. We determine that Wuxi is subject to the country-wide rate for this case because it failed to demonstrate an absence of government control.

Use of Facts Available

As explained in the preliminary results, the use of facts available is warranted in this case because Wuxi, which is part of the PRC entity (*see the "Separate Rates" section above*), has failed to respond to the original questionnaire and has refused to participate in this administrative review. Therefore, in accordance with sections 776(a)(2)(A) and (C) of the Act, we find that the use of total facts available is appropriate for the PRC-wide rate. Furthermore, in the preliminary results we determined that Wuxi did not cooperate to the best of its ability with our requests for necessary information. Therefore, in accordance with section 776(b) of the Act, we applied adverse inferences when selecting among the facts available. As adverse facts available in this proceeding, in accordance with the Department's practice, we preliminarily assigned Wuxi and all other exporters subject to the PRC-wide rate the petition rate of 119.02 percent, which is the PRC-wide rate established in the less than fair value (LTFV) investigation, and the highest dumping margin determined in any segment of this proceeding. As explained in the preliminary results, we determined that this margin was corroborated in accordance with section 776(c) of the Act in the LTFV investigation. *See Preliminary Results*, 65 FR at 18441. We have determined that no evidence on the record warrants revisiting this issue in these final results, and no interested party submitted comments on our use of
