Abstract: U.S. Department of Education Green Ribbon Schools (ED-GRS) is a recognition award that honors schools, districts, and postsecondary institutions that are exemplary in three Pillars: (1) Reducing environmental impact and costs, including waste, water, energy use and alternative transportation; (2) improving the health and wellness of students and staff, including environmental health of premises, nutrition and fitness; and (3) providing effective sustainability education, including STEM, civic skills and green career pathways.

The award is a tool to encourage state education agencies, stakeholders and higher education officials to consider matters of facilities, health and environment comprehensively and in coordination with state health, environment and energy agency counterparts. In order to be selected for federal recognition, schools, districts and postsecondary institutions must be high achieving in all three of the above Pillars, not just one area. Schools, districts, colleges and universities apply to their state education authorities. State authorities can submit up to six nominees to ED, documenting achievement in all three Pillars. This information is used at the Department to select the awardees.
